

***Which clothes do you usually wear?***

I usually wear casual clothes. Sometimes also a bit of “trendy”.

***What are some of your activities during your spare time?***

In my free time I’m playing a lot of handball. You can see a picture of me throwing the ball. I also like meeting my friends. Especially, if there aren’t any restrictions going on because of the coronavirus pandemic ;D .

***What is your favourite meal?***

I actually don’t have one favourite meal. I really like food which differs from the normal stereotypical one. In particular, I love trying new food. Especially, if it’s from another country or it does come from people with other cultural backgrounds.

***Where do you go shopping?***

I actually don’t go shopping that much in the real world. Among other things the pandemic changed my shopping behaviour a lot. Nowadays I usually buy stuff online on bigger marketplaces. But if all the virus’s dangers are disposed of, I am really looking forward to going to shop in the near city centre.

***How do you communicate with others?***

I normally use messengers for communication with my friends. Also there’s social media through which you can meet new people and also of course easily communicate with them. Also telephone isn’t that a big thing anymore. Today many young people are used to text. Official things are settled through the “normal written” post or through emails.

## **Interview with parents:**

### ***Which clothes did you usually wear?***

I normally used to wear a pair of jeans, a t-shirt and sport shoes. If something special happened, I wore f.ex. a black suit or in general something “more special” than my daily wardrobe contained.

### ***What were some of your activities during your spare time?***

I really was into sports. I tried many of them like f.ex. handball, basketball, tennis and soccer. A huge part of my free time was my voluntary commitment in the local sports club. It gave me the chance of meeting a lot of new friends. Of course, I also spent a lot of my spare time with my friends.

### ***What is/was your favourite meal?***

It's kind of a cliché of Germans which I'll serve up now, but my favourite food was actually Wiener Schnitzel.

### ***Where did you go shopping?***

We spent a lot of time shopping. Usually, we went to the town centre where all the bigger shops were. We didn't always buy clothes or food but I also bought a lot of vinyls or any other stuff related to music.

### ***How did you communicate with others?***

Communication wasn't that easy back then. Calling his/her best friend could easily turn into a huge phone bill, because telephoning was quite expensive. So we usually arranged to meet at a specific location at a specific time. This went quite well, but I have to say that the way of communication these days is much more comfortable than back then.
