Media literacy education

Ministry of education Lucia Azzolina, from the scholastic year 2020/2021, decided to introduce a new subject, which is compulsory for all the schools, from primary to high school: literacy education.

The target for this new project is made girls and boys, since when they are younger, to learn respect for the other and for the environment and to teach them how to behave when they use social media.

LITERACY EDUCATION

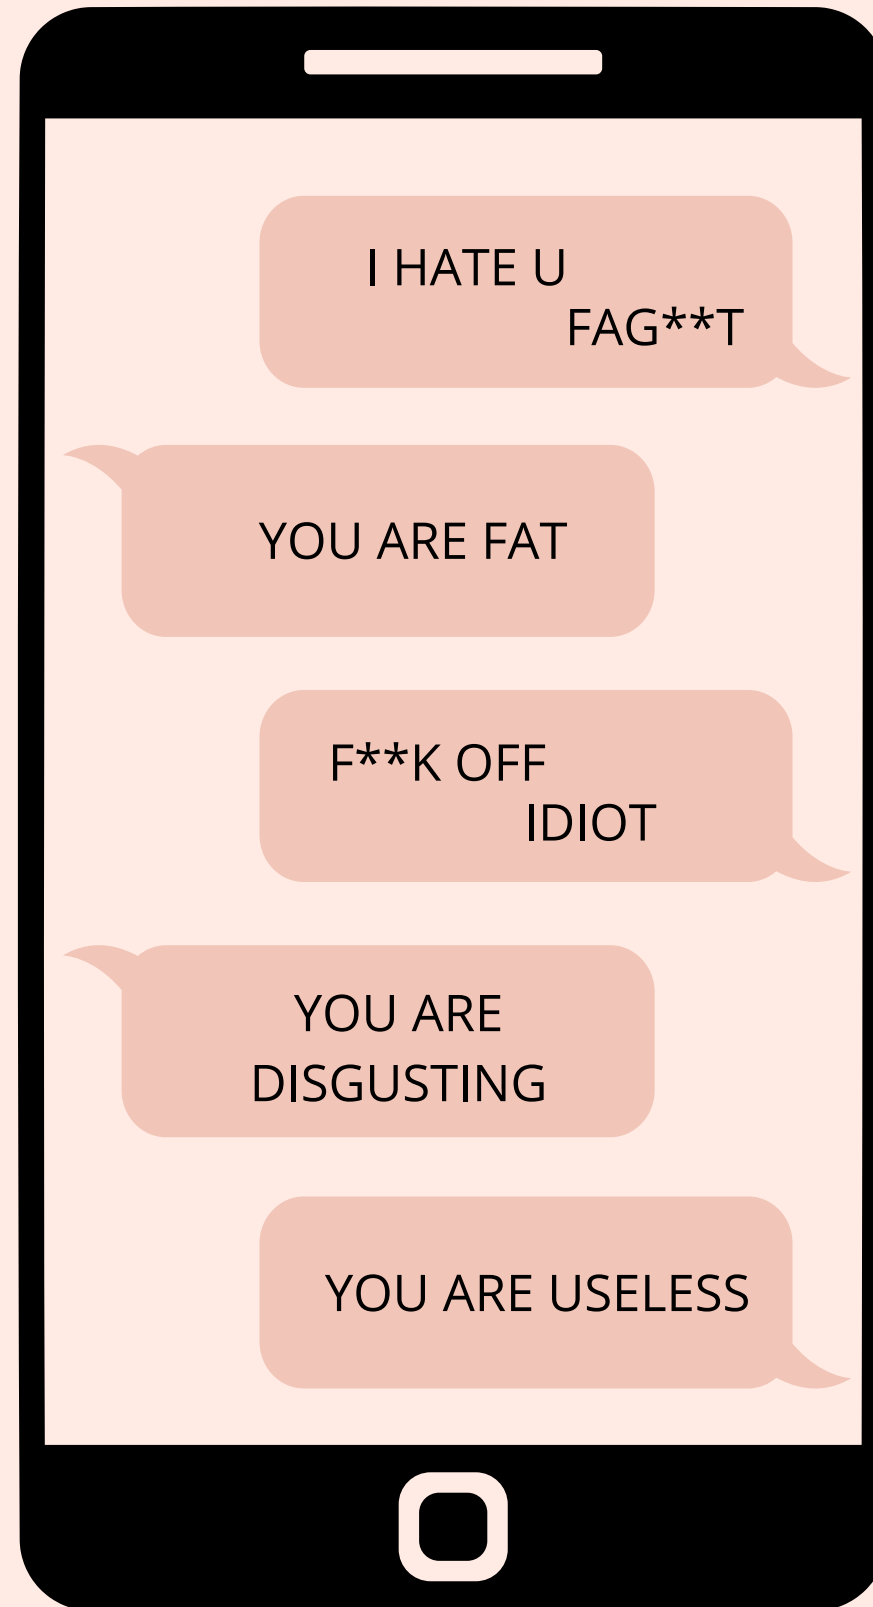

1. CONSTITUTION
right (national & international), legality and solidarity;

2. SUSTAINABLE DEVELOPMENT
enviromental education, knoweledge and protection of heritage and territory;

3. DIGITAL CITIZENSHIP
individual capacity of consciously use of digital media.

WORDS' IMPORTANCE

WORDS CAN KILL MORE THAN BOMBS

Some people use their words and tongues to discriminate, to divide and to kill.

A word is enough to kill.

Words are important, use them careful.

THE MANIFESTO OF COMMUNICATION

1. You are what you communicate (words rapresent you)
2. Listen before talk (nobody is always right)
3. Words have consequences (small or big ones)
4. Other's ideas HAVE to be respected
5. Even the silence communicate something (sometimes the right choice is to not talk)

DIGITAL CITIZEN

**values, abilities, attitudes,
knowledge and comprehension**

ABILITIES

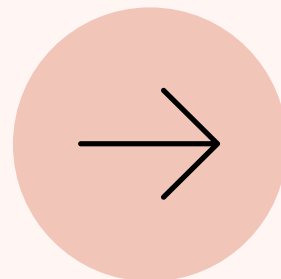

- Listening and observation
- learning
- critical reflection
- adaptability

- empathy
- cooperation
- communication
- conflicts' resolution

DIGITAL CITIZEN

**IS SOMEONE CAPABLE TO DEDICATE ONSELF
RESPONSIBLY ON ONLINE AND OFFLINE COMMUNITY,
WHICH IS LOCAL, NATIONAL OR GLOBAL**

ATTITUDES

- civic sense
- tolleration
- respect
- responsability
- open mind

KNOWLEDGE AND COMPREHENSION

1. human rights and policy
2. economy
3. religions
4. knowledge of
themselves
5. culture

- If u know that your neighborhood or your teacher could read the things you wrote online, would you write the same things?
- Are you sure that you would like the contents that you post nowadays in a few years?
- Do you know how to recognize internet's dangers?
- Do you know how to defend yourself from provocateurs and lurers online?

SOCIAL USERS PAY ATTENTION!

YOU HAVE TO THINK ABOUT IT

Think carefully posting your personal details (name, address and telephone number above all) on internet or accepting friendship request

ATTENTION TO THE IDENTITY

More often people create false identities to play or to find information about someone else. Only some photos and life's information and you could be the next clone.

Respect

Don't publish other's pictures or information without their consent. You could also risk criminal penalties.

FOREVER ...OR NEARLY

You lose the control of your data when you post them on social media. Those could be registered from all your contacts or group's components and diffuse. The enterprise that manage the copyright could use all the thing that you publish online (photos, chats, post.. everything)

Ratiocinate

Remember that information and images could emerge also after a lot of years
