

Lithuania through our eyes

Our week from April 4th to 8th was incredible. We met six groups from different states and learned about each other's cultures. Welcome event was so heartwarming, and students prepared a variety of performances for us from folk dances to traditional songs.

We enjoyed doing Lithuanian games together and the Workshops. We wish that this week could have lasted longer. Also, we were impressed with the Mosedis Stone Museum and Amber Museum, and we loved them. On Tuesday, we had a fun-filled evening at the youth centre, which is for young people to spend time, organise discos, play different games like chess, UNO, board games, billiards, air hockey, foosball tables and watch movies.

Students in Ylakiu gymnasium were so kind and cheerful and always welcomed us when we arrived at their school. Thanks to them we got to learn lots of new things from Lithuania.

In the afternoon of Thursday, we met the folk group "Alda". They taught and let us participate in their traditional dances, songs and games, it was a pleasure to play along with them. They were kind, cheerful and full of energy. We had such a great time at the farewell dinner on Thursday because we had so much fun and we got closer to each other and learned a lot of dances from Italy, Finland, Portugal, Romania, Turkey, and Lithuania. We are very sad that we are leaving tomorrow, but we will keep these memories and experiences in our hearts.
