THE GLOBAL GOALS

For Sustainable Development

8 DECENT WORK AND
ECONOMIC GROWTH

2 ZERO
HUNGER

The area of ioannina have lot of organisation such as:

- Hellenic Protein
- Dairy Research Institute
- Agricultural Poultry Cooperative Ioannina “Pindos”
- Agricultural Poultry “Nitsiakos”

These offer to the city of ioannina fresh products in order to achieve goal 2

Hunger...

Hunger is a global problem involving thousands of people on our planet. Many people die of it and suffer daily. The hunger is due to two things firstly in financial problems and secondly to the difficulty in finding out food. That's why, we must have all the above mentioned in our minds and do our best to help these people in need.

In our region

A way to achieve goal 2 and goal 8 in our region is working in the Greek company "Hellenic Protein" .This company produces milk in which it removes water and produces milk powder. Thus, in this form, milk is moved around the world safely, without taking up space, more economically, without spoiling its quality and in this way milk can reach countries in the Third World.

HELLENIC AGRICULTURAL
ORGANIZATION - DEMETER

<http://www.elgo.gr/index.php/el/>

Hellenic Agricultural Organization “Demeter”

The main object of Hellenic Agricultural Organization “Demeter” is: First to develop and support actions designed to modernize and develop the agricultural sector of the country,

<http://www.elgo.gr/index.php/el/>

Hellenic Agricultural Organization “Demeter”

Second to improve the production processes and to certificate the quality of agricultural products and food,

<http://www.elgo.gr/index.php/el/>

Hellenic Agricultural Organization “Demeter”

Third to establish and certificate the advanced agricultural practices and controls on milk and meat production-distribution chain in the country.

<http://www.elgo.gr/index.php/el/>

Dairy Research Institute

A part of the Hellenic Agricultural Organization “Demeter” is the Dairy Research Institute (DRI). The DRI was established in 1984 and joined the National Agricultural Research Foundation (NAGREF) in 1989. In 2001 DRI was defined as the “National Research Institute of Milk and Milk Products”, and in 2011 NAGREF was integrated into the Hellenic Agricultural Organization “DEMETER”.

NAGREF
NATIONAL AGRICULTURAL
RESEARCH FOUNDATION

Dairy Research Institute
