

Erasmus+ 4th Mobility

TUESDAY, 5/3

Alaquàs, Valencia

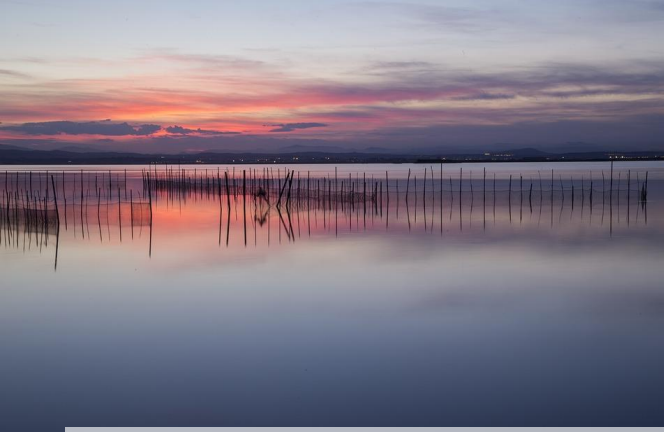

We can say that Tuesday was the "green" day of our trip in Valencia!

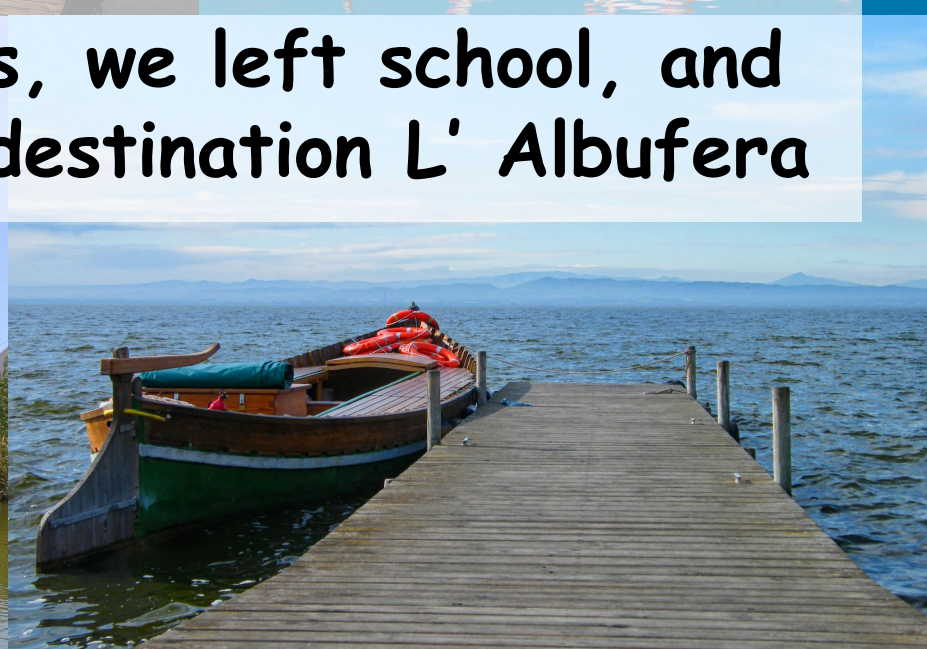

Of course, we started with some presentations as usual. This time each school presented their projects on Global Goals **3** and **14**.

After the presentations, we left school, and we headed to our main destination L' Albufera

Boat Trip

We took a boat trip in order to reach the place where our visit would take place. For the boat rides, we separated into two teams: the Spanish team and the foreign team.

Paella rice

Our tour guide talked us about the paella rice and he also gave us some pretty useful information about it. This rice's name is **Arroz Redonda** which actually means round rice.

In the forest of L'Albufera

We later on headed to the forest of L'Albufera. We walked across it while seeing many examples of this forest's vegetation. During our walk, the tour guide gave us loads of information about the forest.

After our beautiful trip through L'Albufera we took a small break to eat the tradicional paella in a picturesque restaurant in El Saler!

Finally, we finished our programme with the amazing beach of El saler. There, all the students participated in sport activities, such as beach volley, beach soccer and more!
