SCHOOL

Our school

The Zosimaia School of Ioannina was founded in 1828 at the expense of the Zosimas Brothers, well-known national benefactors. It has influenced greatly the education of Greeks during the Ottoman Period and continues so today.

Nowadays, the PROTYPO GYMNASIO ZOSIMAIA SCHOOL is one of the five Model School Units of our country. It is the first and only mandatory part of secondary education in Greece. It consists of 3 grades (A', B', C').

Each year 88 students are enrolled in the A' grade through written exams. On the whole, our school is comprised of 264 students (12-15 years old) and 34 teachers who are assessed by the Greek Ministry of Education. Our educational practice also includes Excellence and Creativity Clubs.
