- Yes, but not totally.
- No

Were the presentations well prepared?

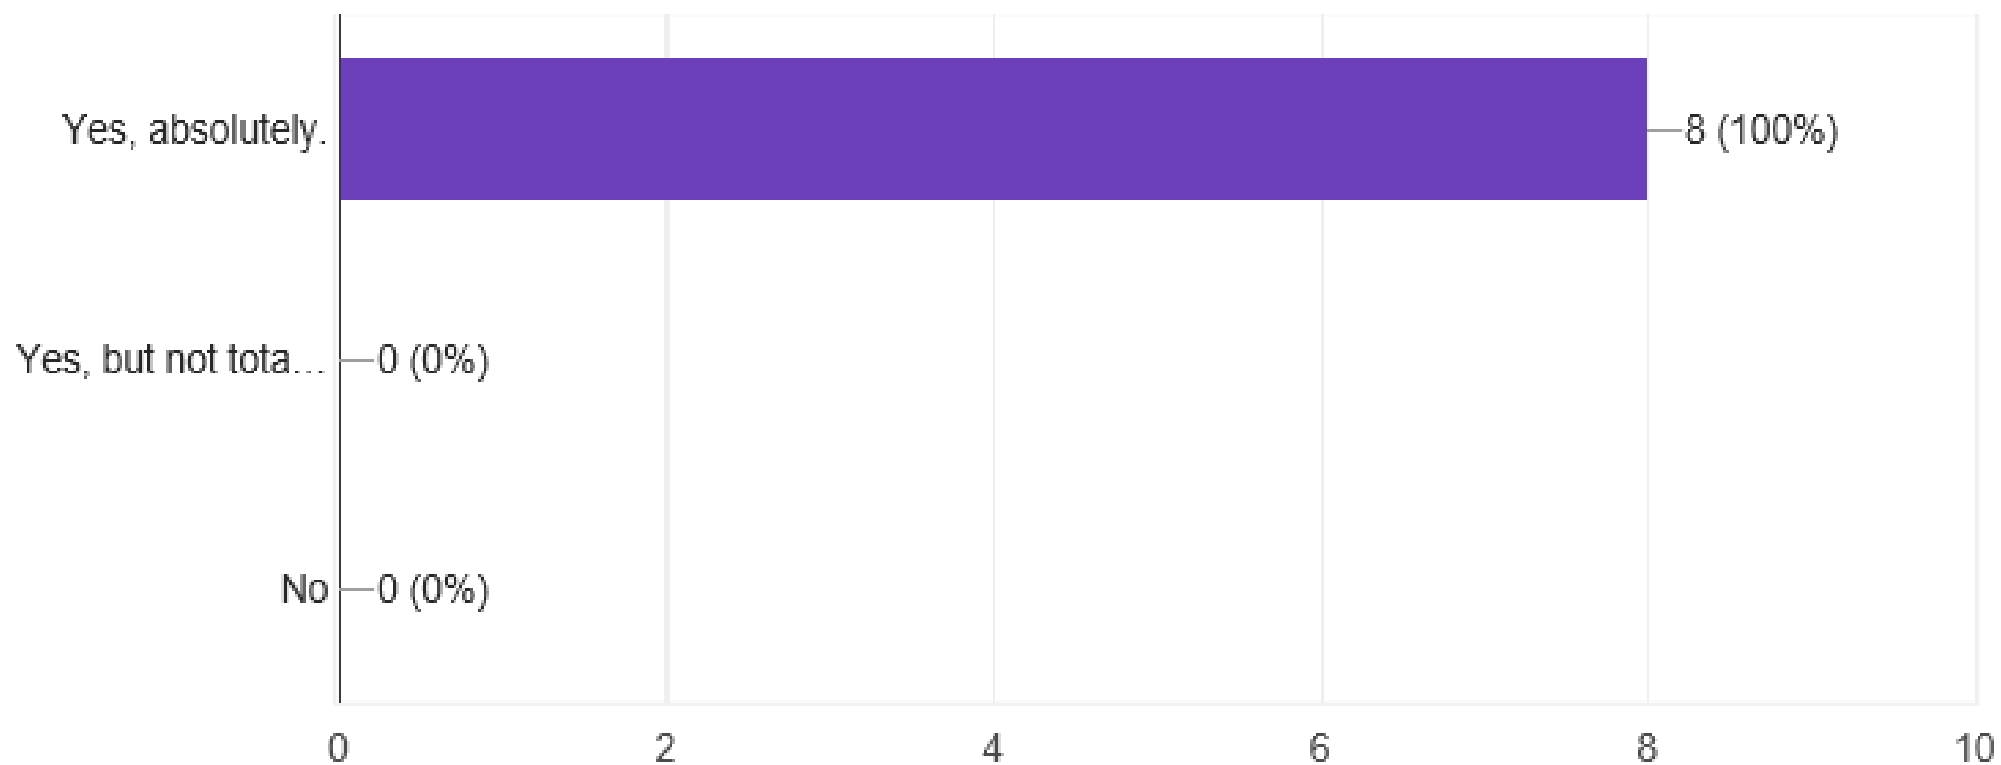

8 respostes

- Yes, absolutely.
- Yes, but not totally.
- No

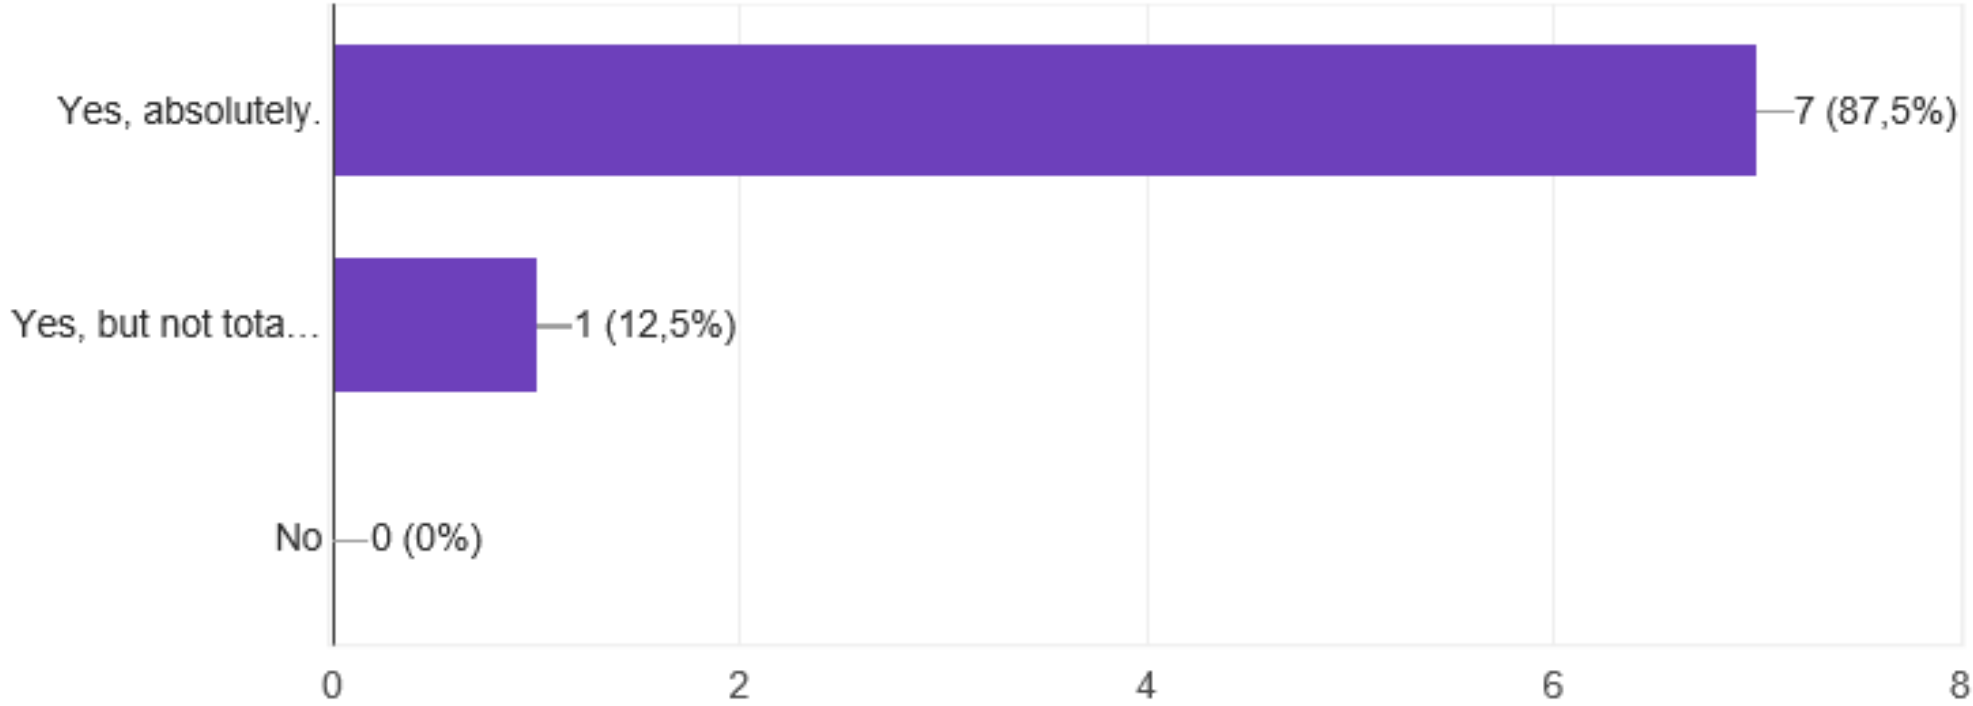

Did we achieve the planned objectives?

8 respostes

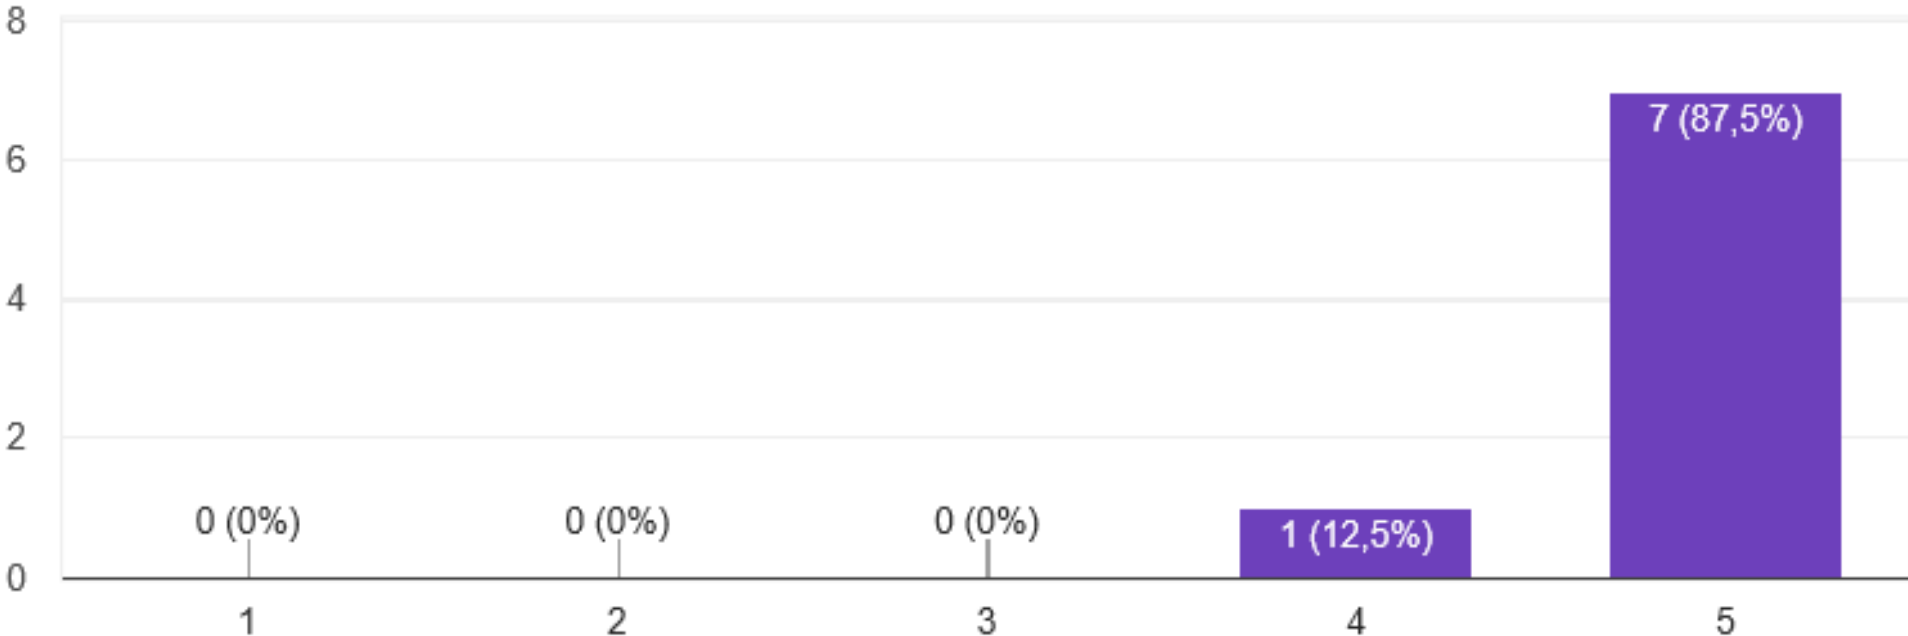

Did we manage our time wisely?

8 respostes

Overall usefulness of the meeting

8 respostes

What did you find most useful/least useful in the conference?

6 responses

Most useful, communication and collaboration between partners

We could know the other colleagues and teams involved in the project and we could define all the activities of the project.

I really enjoyed the cooperation between all the teachers

The meeting was effective since all the proposals discussed were clear and the decision-making process was satisfactory.

I found very helpful the serene atmosphere of the meeting, the use of the slide and the clarifications on the various aspects of the agreed activities.

I find it useful to get all the presentations on USB so that it was possible to listen to your performance and to add more information right into it simultaneously

What did we do that we should avoid doing in future meetings?

5 responses

nothing to say

We should make sure future meetings do not coincide with national holidays.

You should not appoint a meeting in local or national holidays because we were unable to visit the city's attractions in our free time.

I am convinced that everything has gone well as it has been organized.

Provide rest during your presentation! Insist that guests stick to the agreements so that a smoothly course of action is given

What didn't we do that we should have done?

3 respostes

The meeting was weel organised and there is nothing else to add.

For me everything went beyond my expectations and tanked my fellow Spanish Coordinators.

Nothing
