

Connect and Play

Task 6:

Crazy tales

Time: February 2017 – May 2017

Application/Procedure:

- This task is based on collaborative creative writing.
- Each country will create a **subpage** under the main page entitled, “**Connect & Play: Crazy Tales**”. Please name the file with your country and the title of the story.
- To add pictures, drawings, any kind of illustrations create an **album**.
- In the end, we will create an **e-book** with the final product (i.e., all the stories).

February

- Students of each country start a story.
- The story has to have a title and the opening paragraph should introduce the main characters, settings and topic of the story.
- It should be 3-4 sentences long.

March / April

- In next rounds, the students from all schools add next parts to the stories.
- Students may work individually, in pairs or small teams (depending on their skills in English and creative writing).
- Each student (or team) is allowed to add to each story only once (maximum a paragraph 3-4 sentences long). However, they **cannot** write in the story started by their own country.
- Technically, each co-author should use a different font colour for their fragment and add their name to the list of authors at the beginning of the story.

May

- In the first week of May students of each country end the story they have started.
- Then, in a poll, all students can choose the best story they have written together.

Responsible for the task: Finland and Greece

WELL GO AHEAD, USE YOUR IMAGINATION AND... HAVE FUN!!!
