

Erasmus+ School Cooperation Project 2014 - 2017

## Connect and Play

### Task 3:

# Through Different Eyes

#### October Part 1:

- In groups, you must decide on a theme for a book. This book must not really exist. Decide if it will be a story book or non-fiction. **Choose a title and genre** (historic, science fiction, fairy-tale, fantasy...).
- Each group to **create an illustration** for this book in any media (paint, pencil, computer-generated)
- **Describe your picture** in as much detail as possible, so that someone else can try to recreate your image by reading the description. Include colours, relative sizing information, positions, style and anything else that might be useful.
- **Upload the DESCRIPTION** only to the 'Through Different Eyes - all descriptions' folder in 'files' on Twinspace. Please **name the file with your country and the title** to your imaginary book.

#### November Task 2:

- Your next task is to browse the book titles and choose one that appeals to you. Open the folder and read the description.
- Carefully following the written description, try to **create your own version** of the illustration.
- When you are finished, **upload your own version** to the folder belonging to the country who wrote the description, in the 'Images' section of Twinspace. Each book title may have many illustrations in its folder when we are finished.

#### January Task 3:

- Each school or group must **judge the illustrations** in their own folder, choosing the best illustration for their description.
- You may then **share your original** illustration for everyone to see!

Any questions your teachers can't answer, please message Ellen Barnes and Celia Raventos on Twinspace.

Good luck - have fun!!
