I usually drink it or shower with it

to drink, shower and cook

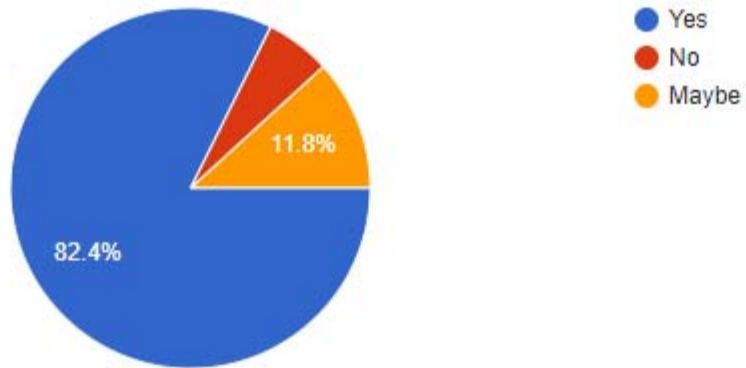

Hygiene

Drink, toilette, cooking, washing,...

to hydrate ourselves, to cook, to clean, to play, to drink.

Do you know water pollution?

68 responses

What are the causes of water pollution?

68 responses

Human behavior

sewage discharge, industries

Chemicals, naturals, biological (bacterials, for i.e.)

Oil, soap and chemical products we use every day

Lack of human empathy and corruption

Microbes, heavy metals, harmful and toxic waste

sewage discharge, industries

water spill, dirty, industrial, acid rain

Human behavior, rubbish.

What are the causes of water pollution?

68 responses

Wasting water

Industrial waste, agricultural pesticides, contamination with sewage, deforestation...

Vulcano eruptions, animal waste, algae blooms, residue from storms and floods, everyday sewage and garbage

Industrial waste, accidental oil leakage, chemical fertilizers,

Warmful and toxic chemicals verted to the sea, also trash, fuels, pestizers

toxic waste and camicales

dirty water discharges, industrial, acid rain,

Humans with harmful and toxic waste and chemicals

Waste from cities, animal waste, chemical fertilizers, pesticides, oil spils...

What are the causes of water pollution?

68 responses

people cause water pollution

There are many causes: fertilisers, pesticides, nitrates, phosphates, plastics, faecal waste, radioactive substances.

It's a event that happens when toxic chemicals enter in contact with water bodies

the humans

Primarily people.

Marine Dumping,Accidental Oil Leakage,the burning of fossil fuels,chemical fertilizers and pesticides

Garbage and us people not taking care of the Earth

Human negligence

Factories, pesticides, oil spills, fuel combustions

What are the causes of water pollution?

68 responses

Human behaviour

Rubych

Sewage discharge, industries, acid rain

Microorganismos, fertilizantes, residuos de empresas que llegan a las aguas de consumo

Harmful chemicals, toxic waste, volcano eruptions, animal waste, algae blooms etc.

CO2

oil spills, fossil fuel combustion, pesticides, chemical fertil.

The inappropriate use of the plastics and the contaminant disses that we use everyday

Major cause for water pollution is plastic.

What are the causes of water pollution?

68 responses

Eruptions, floods, storms, animal waste...

Ljudi.

Harmful chemicals, toxic waste, volcano eruptions, animal waste, algae blooms.

disses

Wastes

CHEMICALS IN THE WATER, GROWNDWATER, DUE TO OUR NATURAL ACTIVITIES, OIL SPILLS, PESTICIDES

ours bad actions

Exhaust gases, big industries, cars, acid rains, people...

Smeće koje se baca u vodu, kemikalije koje se ispuštaju, brodovi...

What are the causes of water pollution?

68 responses

Smeće koje se baca u vodu, kemikalije koje se ispuštaju, brodovi...

For the contamination, for rubbish in general.

It's caused by the plastic materials and industrial waste we leave behind.

When we throw garbage into the river

The passage of man on Earth is the greatest pollutant for water and for the planet in general

People,nuclear electrane, garbagge, industries, cars.

Animal and plants are dying.

I think the most important thing is wastes from factories.

The major cause is human irresponsibility.

What are the causes of water pollution?

68 responses

batteries, faeces

Industry, garbage disposal near water

men`s actions

The garbage they throw in the water, oil and CO2

Polluted areas or areas with difficult access to water, due to animals or human waste

dirty water discharge, industries, acid rain.

Melting of poles, polluted seas, etc.

We are dangerous

throw garbage into the seas, do not recycle ...

What are the results of water pollution?

68 responses

as a result we have less clean water, damage to the fauna and flora of oceans and rivers

Disease

The extermination of humans

Quality water is not as good as it would be

Death, illness, aggressiveness, cognitive impairment, unhappiness

It lowers the quality of water

i dont now

We have less clean water, we damaged the cage and the flowers

Losing natural habitat, extermination of humans.

What are the results of water pollution?

68 responses

Voda koja nije namjenjena za pice ni za svakodnevne potrebe.

Probably world wars in the near future.

Dead animals that live in water

Diseases, mortality, shortage of drinking water, contamination of the food chain...

Diseases

It means the end of all the existence.

Dying of organisms like fish or many other animals, and toxic water that cause diseases or infections.

degradation of water

as a result we have less clean water, damage to fauna and flora of oceans and rivers

What are the results of water pollution?

68 responses

Severe diseases and infections in human and animals, killing an organisms that depend on water bodies, damaging the ecosystem and threatening the life on earth

Leads to disease in human and animals, death of aquatic animals, resulting in damage to ecosystems..

loss of fresh water and animals

water shortage

The results are diseases and death of a lot of animals that depend on that water

many animal deaths

Less pure nature, disappearing habitats for animals ...

Polluted water causes some of the deadly diseases like cholera, dysentery, diarrhoea, tuberculosis, jaundice, etc. About 80 per cent of stomach diseases in India are caused by polluted water.

What are the results of water pollution?

68 responses

Water is contaminated and cannot be used for drinking

Ice cube melts, less fresh water for drinking

Infectious diseases like cholera or hepatitis, death of fishes and other animals, death of people

Josing natural habitat

Contaminación en seres vivos, desabastecimiento de agua

Diseases (hepatitis, cholera), dead animals that live in water

death the fishes

diseases, and some animals can die if they drink polluted water

Seas full of contaminant disses and thousands of animals that live at the ocean die because of the water pollution

What are the results of water pollution?

68 responses

Lack of water.

Fertilizer, facilities, chemicals...

Ne doprinose prema boljemu. Zavisi o određenom mjestu.

as a result we have less clean water, damage to fauna and flora

Zbog zagađenja strada sve više životinja, postotak pitke vode se smanjuje, kvaliteta života je slabija.

dead ecosystem

Water depletion

ECOSYSTEM IS IN DANGEROUS

destruction

What are the results of water pollution?

68 responses

Nature pollution, animal diseases, human diseases, global thirst, low hygiene standards...

Sve je manje pitke vode, ugrožene su životinjske vrste

More more.

The death of living things in the sea and the fact that our water sources are contaminated and unusable

marine animals die

Disappeared species, areas that are not drinkable, seas in which you cannot bathe.

Diseases, death of animals

The extermination of humans.

Dying of sea creatures

What are the results of water pollution?

68 responses

death, disease

It can no longer be used.

lack of clean and fresh water

the death of various animals that live in the water

Sickness and death

We have less clean water.

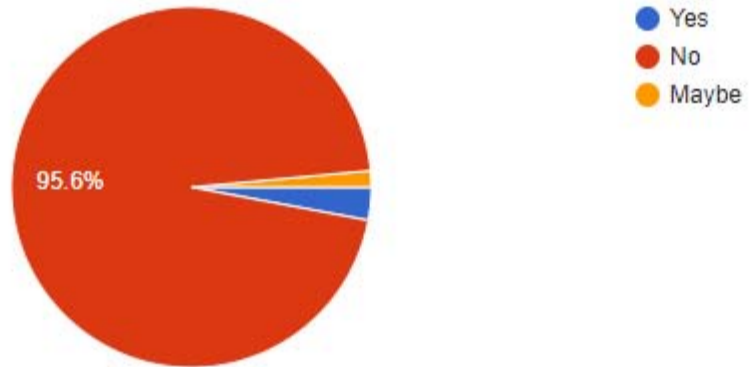

water discharge

Contamination

melt ice, anointing, rain

Is it possible to live without water?

68 responses

Why do we need water?

68 responses

For life.

because we are 60% water

For living

Because we use it in all of our main activities

At the very least to survive

We need it to survive

water 60% of world

to live to hydrate

Da bi mogli živjeti, da bi naš organizam mogao funkcionirati...

Why do we need water?

68 responses

Because our bodies simply can't live without it

For living, for life

Because it is essential for life

For surviving

To survive first and then live a healthy life

We need water to live, is a basic element to sustain live on earth.

for life beeng

to hydrate ourselves

Our bodies are made mostly of water so the water is a source of life. Without it, we would die

Why do we need water?

68 responses

We need wather for every sphere of life.

We can't live without it.

We need water for a living

To stay hydrated and don't die

because we are formed by water

We need water for many uses, but for people's lives the most....

Because our body uses water in all its cells, organs, and tissues to help regulate temperature and maintain other bodily functions.

To survive. Our cells are made out of the water and so is the human body

Almost for everything

Why do we need water?

68 responses

To maintain our body healthy

For living, for food...

Living, cooking, drinking

for life

Es esencial para tener una vida sana

We need water to sustain life on Earth.

yes

Because water is one of the main resources on earth. Everything is based on water.We

Because H₂O or water is an essential element to stay alive, we are almost 80% water

Why do we need water?

68 responses

It's essential nutrient to the life of every cell.

It is essential for everything. For instance, the earth consists of %75 water. It is impossible to live without water.

Našem organizmu je potrebna adekvatna količina vode kako bi mogla odraditi sve metaboličke procese i omogućiti nama što više energije.

Without water there would be no life, water is an integral part of everything around us

is needed for life

To survive

Because it is necessary for all we do and for surviving

survive

Why do we need water?

68 responses

We need water for higiene, drinking, cleaning, cooking, watering plants...

Preživljanje

We need water for everything.

Because it's more necessary in our lifes.

Because all living things need water to exist.

To hydrate

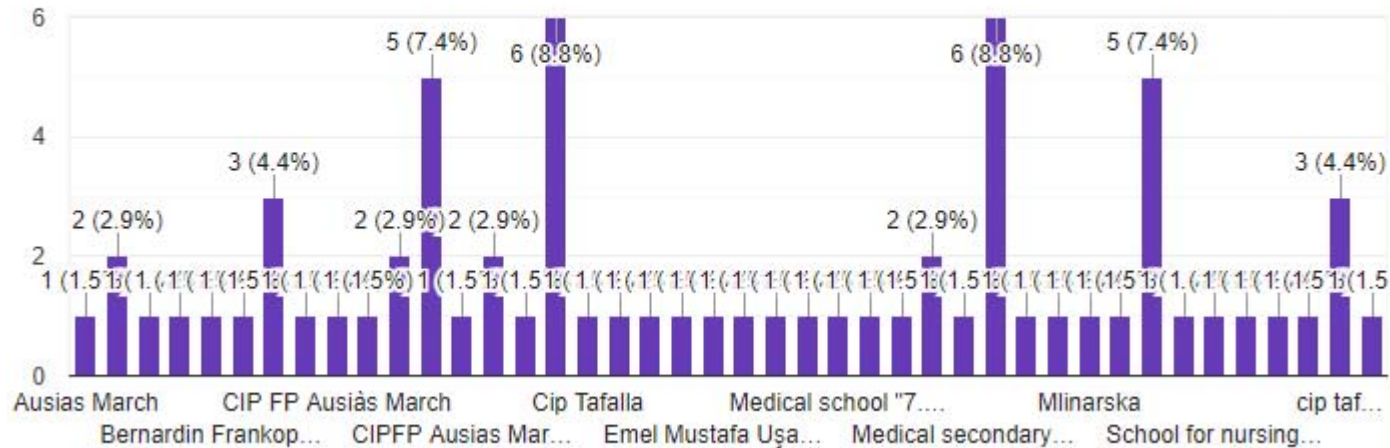

Because without it we could not live, because we need it for our body to function, and because it regulates the temperature of the planet.

For life, drinking, cooking, cleaning

For live

What is your school's name?

68 responses

Why do we need water?

68 responses

drinking, hygiene, cooking

For everyone in our lives. Cooking, drinking, hygiene

as long as there's water there will be life

water is necessary to live

Because in large part we are water

For live, hydrate ourselves

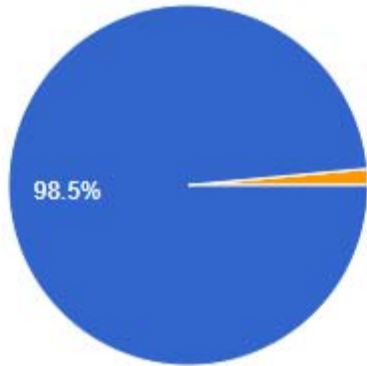

to live

For life

to live and hydrate

Do you think that we must do something to save our water?

68 responses

- Yes
- No
- Maybe

For you,what is the best slogan to save the water?

68 responses

Water is life.

Water is life

Water clean!

Without water life is not possible

El agua nos mejora

Lessen the pollution of water

WATER IS IMPORTANT

Do not play with the water a lot, do not make it dirty

Za dobro zdravlje i zivot u uzitku,ocuvajmo vodu pitku!

For you,what is the best slogan to save the water?

68 responses

"You know you can't live without it so care about it. "

There are numer of ways to save water... And it all start with you

It's easy to say,hard ti save

Water is Live, Save your Live

save water save life

pollute less

Save the water to save yourself

Save water-save life!

For you, what is the best slogan to save the water?

68 responses

Save the water - save yourself!

Take care of the planet, save water

Go blue!

Don't throw trash to the water, it is better on the dumpster

Stop polluting

Do not spend it for unnecessary purposes.

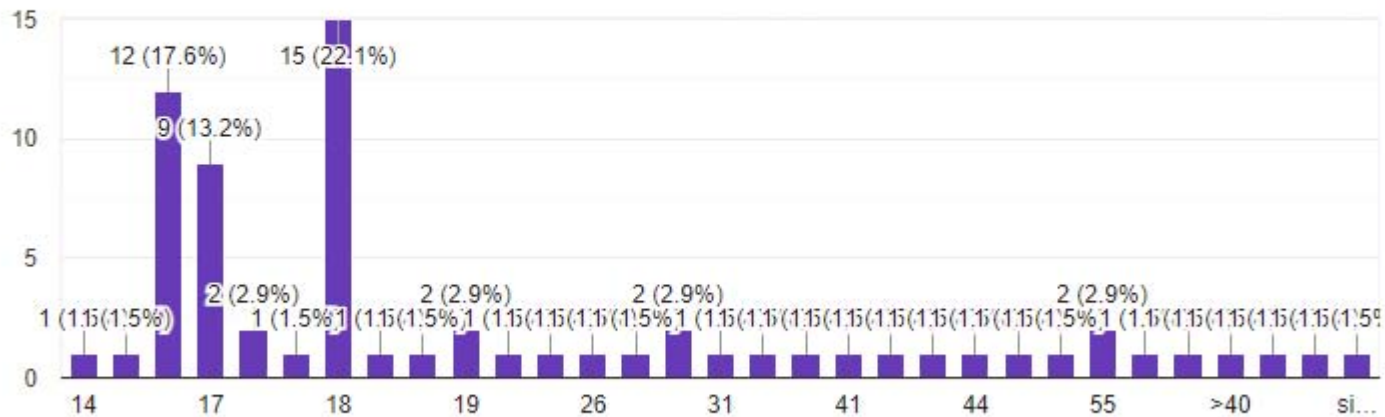

Save water and it will save you

Good water, in and out

It takes a lot of blue to stay green

How old are you?

68 responses

For you, what is the best slogan to save the water?

68 responses

Water is life, save water to save your life

Safe water, safe life.

the water is life

El agua es vida

Save water!

save the water on the world

Save the water, it is important

Respect the water, and let's enjoy each other

You never know the worth of water until the well runs dry.

For you, what is the best slogan to save the water?

68 responses

Saving the water is to save your breed.

Štiti ono što čini zdravlje.

We know that when we protect our oceans, we protect our future

Svaka spašena kap poboljšava kvalitetu tvog života kao i svih ostali. Produljimo život zajedno.

water to live and not to die

You can protect the water with your daily routines

make the difference and save water

Keep the water clean to stay healthy.

Ne uništavajte ono što nam omogućuje preživljavanje.

For you,what is the best slogan to save the water?

68 responses

Save water,water is life

Water is needed, so we must take care of it.

Save water, and it will save you!

The value of the water is not appreciated until the well dries up

Today may be the last, tomorrow there will be nothing

Save the water, save life.

Be kinde to water.

If you want to live, protect water

Don't flush our planet's most valuable resource.

For you, what is the best slogan to save the water?

68 responses

No to pollution

Save water for better tomorrow.

Treat it right, dont waste it!

Stop the tap, save the water

Clean water should be drunk, and polluted water should be cleaned !!!

Save the water-save your life!

Thousands of people have survived without love, none without water

The water is better without flavor

Do not pollute the environment
