Susanna Fogli - IC IL GUERCINO - Cento - Italy

We ha a Safer Internet Week at our school, with lots of activities. Teachers discussed in class with students about opportunities and risks of the Internet. We watched a video about F.O.M.O. (fear of missing out), very common among young people. We also had a conference with parents and we talked about: cyberbullying, passwords, social media and video games addicting.

We organised an online meeting, discussed some possible ways for online safety and my students have designed this great game- Chase a maze.

Bullying - true or false? (SID)

- 1) People with a physical disability, are more likely to experience bullying than a person without a physical disability. a) True b) False
- 2) Social exclusion is a form of bullying. That means, when your mates leave you out on purpose to hurt your feelings, they are indirectly bullying you.
