

My story.

Hi my name is Tesfaldet Bahta and I am from Eritrea I am 18 years old And now I am living in Sweden, it have been 4 years since I left my country, and I immigrated when I was 15 to a country called Ethiopia. I moved because the situation in my country was difficult due to politic problems.

And I have been in a few countries before I come to Sweden such as Libya, Sudan Ethiopia etc. And I learned so many things from all my journey in the different countries I have been in.

Now the situation in Sweden is much better than the other countries I have been before, feeling good and even can go school and trying to improve my knowledge.

I have hade a difficult time in my journey from Africa to Europe(Sweden) my story looks like so So far.
