

# Gender equality<sup>01</sup>

Difference between man  
and woman

Irene, Mar, Janne, Milena, Gloria, Tina, Ilya

# The main stereotypes:

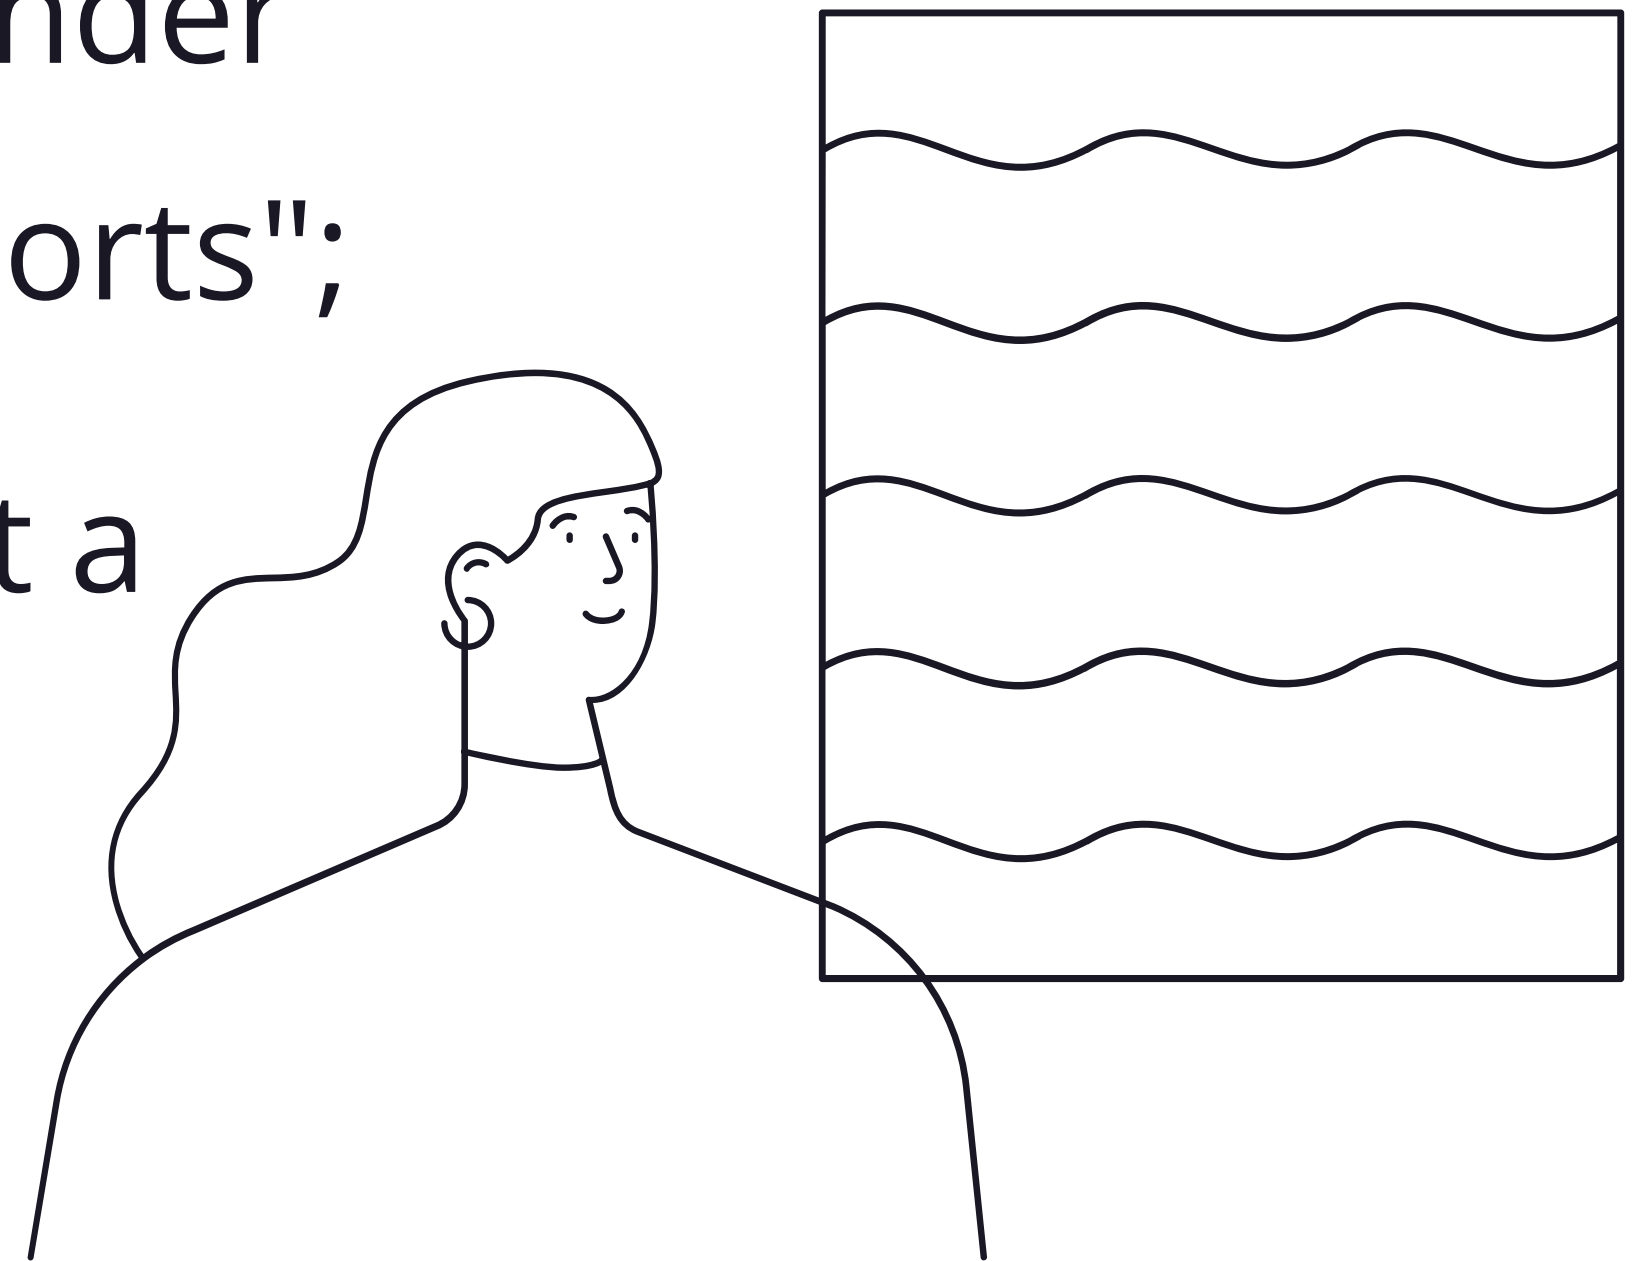

There are a lot of stereotypes, but here are some examples:

Works considered as a gender

"Masculine and feminine sports";

"Feminists are crazy, got get a boyfriend."

"You are JUST a woman, go back to the kitchen."

# Works considered as a gender

people think that men are more into physical job, because may be they have more physical resistance and physical force than women.

On the other hand, women are more frequently working with children or public-facing.

There aren't just 2 genders:

It is one of the human rights to  
consider themselves who they  
want to be;

# WOMEN IN THE SPOTLIGHT

Women are easily criticised when they do the same as men because they are not in their place, when they have the same abilities as men

# Solutions:

**Main idea: Spread awareness in society about gender equality by educating them and break the stereotypes.**

**In schools, as teenagers, we can lower the role of gender stereotypes.**

**More educative shows in TV, more shows, where woman plays the "secondary" role (media&entertainment);**

**Nowadays orientated schools( not only GE)**

# **Realisation:**

Just volunteering group of students, that want to  
raise the awariness;

A lot of organisation, for example Embassy's,  
provide a lot of funds to promote the democracy, by  
that we can create our project;
