

Our school

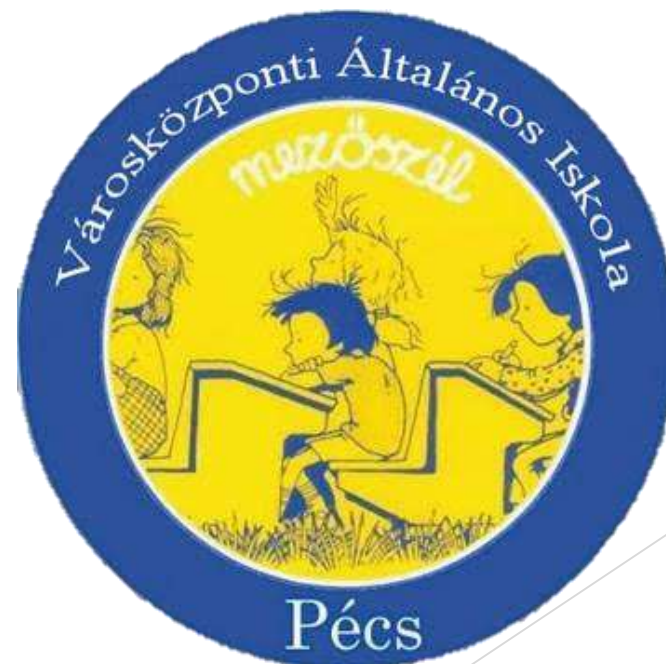

Central City Elementary School, Pécs, Hungary

Introduction

Our school building is one of the 5 schools in the Central City Elementary School complex.

It is in Mezőszél street hence the name Mezőszél Elementary School

Enviromental Protection

Our school has a lot of programs to help protect the enviroment:

- We collect bottlecaps, paper in order to encourage selective garbage disposing
- We have meetings in our school yard regularly where we talk about enviromental protection and what we can do at home in order to help

Our classes

From 5th to 8th grade we usually have 5-7 classes during the day.

There are two English groups: one is learning english in 3 classes a week the other group is learning the language every day of the week.

We also have a P.E class every day which I think is very good

Schedule

We have to be in school at 7:45 every day but classes start at 8 o' clock

The breaks are form 10-20 minutes depending on the classes they're between

At lunch time we go down to the cafeteria to eat.

School sports

After classes we can take up several sports on top of the P.E classes we have every day:

- Handball
- Basketball
- Dance classes

School events

We celebrate several events throughout the year including:

- Christmas
- Farsang (costume carnival)
- March 15. (Hungary's national day)
- World Music Day
- Easter
- October 6. (National day)
- Money week

(In the picture, we can see the celebration of Farsang.)

Our experiences

Even though our school isn't the biggest I think everybody would agree with me if I say that we all love our school

We don't have a lot of students going to the school but we still have a good community

Thank you for watching!
