HALLOWEEN AT OUR SCHOOL

Due to all the present COVID-19 restraints, this year the Halloween tradition has not been so brightly celebrated in our school as it has always been in previous years: for example, there was no exhibition of carved pumpkins. Even so, decorations were exhibited in our school library and in the main hall. Moreover, some 11 and 12-year-olds got joyfully involved in a few Halloween activities. However, the personal data protection law prevents us from uploading any photos or videos on our school website, on social networks and on any platforms. Our school enforces this law very strictly. That's why we can't upload them here.
