

# MY EXPERIENCE IN CLERMONT-FERRAND

---

This week in Clermont we have visited a lot of places but I have specially loved two places. One was the culinary school and the other one was the Michellin factory.

At the culinary school we saw what the working system in another hospitality school is like. I noticed that they work in a totally different way compared to Gamarra school. At the French school, waitresses must wear a skirt, cooking students don't have to buy any equipment and the kitchen is distributed in parties and not by curses. I'm in love with that school!

At Michellin we saw the first train that this factory maded and we toke a lot of photos and it get fun!!

It was my first time in France and I have enjoyed a lot.
