

FOOD FOR THOUGHTS

When I came to Clermont I saw the snow around the city and I thought that it was going to be colder than in Vitoria but it turned out that I was wrong, the weather is similar to ours.

Without a doubt, what I liked most about Clermont was the visit that we did to Chamalières Hospitality School. It was very professional and the fact that teachers and methodology were so strict makes me wish to go to study there in the future.

I have not been able to see too much of the city, but I really liked everything that I saw. Some examples are the Cathedral, the typical local shops, the way people dress, of course the beer and the food.
