

ERASMUS CLERMONT – FERRAND

2018 / 2019

I had a good time in Clermont. It's a beautiful city and there are a lot of things to visit.

I have chosen these three photos because in my opinion , the rugby stadium is so big ! I liked it a lot. About the cathedral it is worth mentioning that it is all built in volcanic stone, which is really special.

One of the things that impacted me most about food was cheese , it is included in all the dishes! In the last picture we can see a delicious creamy pea puree.

We have done more activities such as visit a jelly company, Cruzilles, to a great cooking school, we met Greek and French kids too etc it's great.

I have had a good time in France!
