The connection between the students

I found especially good to get to know some other cultures

The fact that I had the change to travel in another country with a school program

Especially good for me was the "meeting" with the kids from the other countries.

the mobility in Greece

I found especially good in our project the fact that i met new friends( from abroad mostly ) and learnt to cooperate with them. Moreover one of my favourite things we did on the erasmus project was that we went out to learn more about our city and played some games too.

the people I met

Everyone was really nice and made me feel like we were a big family.

everything was amazing! the organizing maybe

We have learned more about our own and other's culture, history.

That we were students from many different countries not only from two. And also that we had a little more free time that we could organize ourselves and get to know each other better.

The friendly new people that I met and the excellent teachers

We made an excellent team work and we've bounties each other.

I found especially good the activities we did with the foreigners!

The fact that we came so close with families we didn't even know before and now they became our second family in another country as well as some truly close friends. All these, in just a week

My friends!!

Meeting new people and learning something about other cultures.

Overall the visits to the different sights but also the presentations each country had to do.

the fact that not only we got closer with kids from other countries but also and from kids from our school and we created an untied bond with everyone. I am thankful for being able to meet

everyone and create so many memories

Meeting new people

The daily trips to learn about germany's history.

I don't think I can name a specific thing that I liked the most, but I think I could say that the people involved in this project were the best part of it. I still haven't figured out why we are so connected, but I do know one thing, I miss them every minute and I would give anything to be with them now, because even though I didn't know them we became friends immediately.

Everything was perfect

EVERYTHING!!!

The mixture of all cultures

Getting to know other cultures and making foreign friends

Learn other people from different cultures
