## 12. What do you think were the best aspects of this online meeting (the TOPS)?

Talking to the other students and getting to know them

The speakers and the people participating

The interview rounds started off as colder, but eventually everyone in the group warmed up to one another and was more willing to answer the questions.

it was very fun to meet other people from different countries and learn more about their schools and lives, and the external speakers gave me a better insight about how communication works

It was fun to meet new people, the programme was nice

to get to see the other people

I learned more about the schools, the country and the city.

That we can meet the others

Meeting the other students!

Getting to talk to the other students.

The work in the smaller international groups and the exchange with other students in general

It was nice to get to know everyone

talking about the different towns

It was fun to meet new people and learn more about other schools and countries.

Getting to know the other students and talking a lot

The speakers and the people participating

The work in smaller groups

the groups that were created for the interview and the icebreaker game

That we can meet the others

to see the people

The inclusion of multiple rounds of questions allowed us to warm up to one another and make the conversation continue better.

- it was very well organized, and it was a good getting to know each other starter

it was fun to meet everybody from the other countries and it was thought out well

The conversation

It was nice to get to know everyone

It was fun to meet new people and learn more about other schools and countries.

I liked the conversations we had within our group. I feel like we have had a lot of fun and I got to know quite a few things that I didn't know already.

it was really fun

Getting to know the other students, and learning about the other countries.

Interact with other students directly and ask them questions about their country.

i found it fun to get to know new people from different countries. and the external speakers gave me a better insight in how communication works

The Interviews

i loved talking to new people and discover more about their countries

the transitions between meetings went smoothly

working in small groups

working in groups, different rounds instead of one big round

Getting to talk to the other students

The opportunity to talk with someone who live in a different way than mine

Working in groups

team work

I have met new people and their cultures and I practiced speaking English.

talk with the other students

There was an icebreaker and we got to ask each other questions about their background that we had already prepared.

During a time when isn't allowed to travel, we've been able to explore new culture by staying at home.

the presentations of the two external speakers and meeting the other students

The best aspects were the rounds of interview where each school answered the questions made to the others

I THINK IT WAS VERY INTERESTING TO KNOW THE OTHER COUNTRIES AND DISCOVER NEW THINGS ABOUT THEIR COUNTRY AND THEIR SCHOOL. VERY INTERESTING IDEA AND PROGRAM

they can be done at any time

i really liked the meeting with the others pupils, it was well organised.

That we was in smaller groups and don't have to say something in the bigger group :)

Asking questions and hearing a bit from people from other countries

To talk to people

It was nice to get to learn about the differences between countries and to meet new people

Being in small groups that allowed us to get to know each other

interaction between students

Getting to meet others

Getting to meet everyone

Getting to meet new people

getting to find out things about the other countries and meeting new people

Meeting new people and learning about their school and community

### 13. What do you think should be improved or changed (the TIPS)?

Better explaining and more time for the documents

The time for asking questions is to long

More time given for the rounds to allow for a better development of the conversation.

perhaps more time for each part

no one was talking, it was very akward at the start and some people spoke onduidelijk.

We did not have a teacher to join the group.

nothing

The connection from the scottisch pupils, they werent there for a lot of the time.

The task to make a presentation about another country is quite hard

The communication between Scotland and the otter countries

it was a bit too long

It is very long to be concentrated three hours so maybe next time there can be a longer break of 20 or 30 minutes. Now the breaks became very short because of we ran out of time.

More time for the documents, better explanation

The duration of the questions was to long.

the start time for the meeting, it is too close to the end of my school!

nothing

some people didnt talk at all and it was very awkward and no one really know for 100 percent what to do, and some people i couldnt understand.

The time spent for rounds should be longer.

the scottish had some problems, and many people didn't really talk

Sometimes we had to much time and sometimes we did not have enough time

nothing

The communication between Scotland and the otter countries

The communication and the technology wasn't always working in our favour. A meeting in person would seem way more fun to me, but that's just not possible.

perhaps more time for each part

the conversation had to be led by one of the students (Leonoor) and she did most of the talking, the conversation did not really start before then

This work method for me is good like that.

it was a bit long, maybe a little shorter next time

i don't really know, i found it easy to communicate

we should start on time

maybe more conversations than interviews, so you have more interactions

better communication between the different schools, but in my opinion that is only possible if this was a real life meeting instead of online. but of course this isn't possible due to corona

It's hard to make a presentation about other countries

I think that all worked good, I would have preferred to meet other students in person

I don't think so

Maybe it should be improved that the teacher who helps us is more like a help and not like a talk-show host. Like more responsibility for the students, i think

The timing could be a bit better. We had a very short break of 3/4 minutes in total.

Maybe having a little more time for interviews. I think it would be fun doing a quiz like: "What do you know/think about our country"

more time for making the word-document

I don't think someone really needs to be changed, just that we (me included) should be maybe less shy and introverts, and instead talk a little bit more. So I'd say something to encourage communication

I THINK THAT THE TIMES SHOULD BE MANAGED A LITTLE BETTER, MAYBE GIVE A LITTLE MORE TIME TO THE ACTIVITIES.

try to have a better connection because in some cases it didn't feel good

Time management was a little bit irritating, sometimes i didn't know when I have to be in which group

Maybe keep more to time slots and hearing from everyone

nothing.

Our connection kept cutting out and it was a bit unclear exactly what we were doing at times

You can form breakout rooms from the general channel, which will make it easier to bring everyone back to the main room as one person has control over all the breakout rooms

all works fine!

Nothing

If there was more time to talk in the groups rather than on the larger group

I think the teachers being on the video impacted the chat and made it slightly awkward

#### 14. Do you have any other remarks, ideas or suggestions?

Thank you everyone for this amazing project!

maybe not so long the next time, it is very timeconsuming and exhausting, but kinda fun

Maybe we could play a game next time

Maybe a little more time to make the document

Thank you for this afternoon!

No, I really liked meeting the other people

Maybe a little more time to make the document.

perhaps we could get a bit more time to interview each other, since we didn't have enough time.

smaller groups for more personal interaction maybe with one teacher for two groups

I've honestly had a great time

NOT IN PARTICULAR, NICE PROGRAM AND ORGANIZATION.

Thanks so much for the meeting!!! I loved meeting everyone

I think that the meeting time is possibly to be changed, cause it's too soon for our school commitments.

Let the pupils lead
