Pupil Survey

- Unlike other tests you fill in at school, answers are not right or wrong, you just have to complete according to what you think.
- Read each of the following questions carefully and choose one among the four possible answers.
- Tick the box corresponding to your opinion: “I totally agree, I quite agree, I disagree, I totally disagree.

	I totally disagree	Don't agree	I quite agree	I totally agree
Generally speaking, I like school.				
I love learning new things.				
I find it difficult to set myself to work				
In class, I start daydreaming easily (example : I think about the end of the week, I would like to be elsewhere,....)				
I prefer learning with tablets.				
I understand better using a tablet.				
The game is for me :				
1. Simply an amusement.				
2. A way of learning like any other.				
3. A waste of time in class.				
For me, practicing sport in school, means :				
1. Having fun, letting off steam...				
2. Staying in a good health.				
3. Learning.				
4. Getting to know the others better.				
5. Wasting one's time making useless efforts.
