BUSINESS PLAN

Produce BIO-PLASTIC packaging

Make our environment better Reduce waste

Business aims

- Create an Eco-Friendly material

Helps the lives of many animals It will make him lots of money

It will save the world

Elevator Pitch

• The waters will be more clean

The future

Erasmus+

product with our self made Bio-plastic.

Products and services

Bioplastics are plastics derived from renewable biomass sources, such as vegetable fats and oils, corn starch,

Cereal companies come to us to pack the

(bioplastics). Not all bioplastics are biodegrade nor biodegrade more readily than commodity fossil-fuel derived plastics. Bioplastics are usually derived from sugar derivatives, including starch, cellulose, lactic acid. As of 2014, bioplastics represented approximately 0.2% of the global polymer market (300 million tons).
