

How we learn with eTwinning

created by Ladybirds from Brno

We

... introduce ourselves to our partners.

... cooperate and use our own ideas.

... take part in common activities.

... communicate.

... use IT.

... think about the security of using the internet.

... present our work.

... practise English.

Such activities like the eTwinning make school more interesting. Even the teachers learn new things! Altogether we face new challenges and we enjoyed it!
