

Hi guys,  
I'm Federica and I'm locked in my house like all Italian people. Unfortunately, this is a very difficult time for all of us.

I miss everything: my friends, my boyfriend, my grandparents and my cousins. I miss the Saturday nights out, the days at the school desks, the quarrels with my classmates.

During these days at home, I train, because the gyms are closed and I'm a girl who likes to keep fit and I'm learning to cook but I'm a mess.

I study in the morning and in the afternoon, I have fun.

And you? What do you do? I hope that during this bad period we can keep in touch and know each other.

See you soon  
Federica
