

# Welcome to our school

Primary School in Wysoką Głogowska

# A few facts

Our school is located in Wysoka Głogowska, a small village in the south – east of Poland. It has around 300 students aged 3 – 15 and 35 teachers. Students learn two foreign languages: English and German. The school offers a variety of different extra activities. At the age of 15 they take their final exams before moving on to a secondary school of their choice.

# Our school building

Our school is made up of two buildings. One of them (the one you can see in the photo) was built about 50 years ago and is currently used by younger students. The other one was built much later, about 20 years back.

The school is surrounded by a lovely, old park and there is a house nearby which was occupied by the richest family in the village.

There are playgrounds, football pitches and basketball courts near our school. Everyone can run around, play and have fun during the breaks and after classes.

## Students' art

You can find murals, graffiti and paintings created by our students everywhere at school.
