

WATERFALL

VS

GEYSER

A WATER BOARD GAME

WATERFALL VS GEISER

This is a game about water. You have to answer to different kind of question to reach the goal at square 99.

Age: 10 to 99 years

Number of players: 2 to 6 (you can choose to play as a single player or as a team)

Material: board, pieces, dice, three bundle of cards (40 green cards: simple; 40 red: hard; 24 blue wave cards: trick or treat), box to put answered questions

Rules: first of all, choose your piece and roll the dice to decide turns of the game (the highest score start first, then the others with low scores). Put the pieces to the start box.

Roll the dice and go to the corresponding square.

If there is a special mark (green question mark, red question mark, blue wave) the player

at your right takes a card and read the question.

If you are right you can go upstairs with the geyser, if you're wrong you pass the turn.

If you roll the dice and go to the beginning of the waterfall, you go down till the end of the waterfall.

If you go on a blue wave square you must do what is written (as examples: freeze for one turn, go to a numbered square, ...)

You must reach the finish square exactly; if the score of the dice is bigger than the goal, you have to coming back by the difference.
