

Trip in Latvia

On Monday we arrived at Ogre at 2pm and I went to my new home with my host. I settled, and we did not anything, just chilled, because I was tired because of the plane, I went to sleep at 7pm.

On Thursday I woke up at 8:30am on this first morning in Latvia. We started school at 10am, we discovered traditional dances and were very well welcome. Then we visited the school in groups, then we did some small sports activities in the gym. At noon, we visited a museum where we made candles, then we went to eat, then we worked at the school, then at 4 pm, we went back to our house. I went shopping, then we went home. we ate, took a shower and went to sleep around 8:30 pm.

On Wednesday we started the day at 10am, we presented our Scratch Game in front of the Latvian, Spanish and Italian correspondents, then we ate, and then in the afternoon, we took the train to visit a ressourcecie and a dam. After I returned with the correspondent of Hortense, to go for a walk at night, I finally went back to my host.

On Tuesday, we started the day by going to the shop of different energies, I really liked, we did experiments and a mini-game, then we went to eat our picnic on the beach, facing the Baltic Sea. In the afternoon, we had a walk around Riga to visit the capital city, it was very pretty but we walked a lot.

On Friday, we started the day by going to a museum where they created cities with electric cars running alone, Then we painted, and we picnicked in a city. After we visited a park and a castle with a medieval story. It was good.

On Saturday it was our family day. I was with Lea at the traditional Ogres market, then we made bread, then went to Bowling to where we met Hortense and other hosts.

On Sunday it's the day of the return, I got at school at 12:55 pm, we arrived in Nantes at 22:10 pm.
