Finland is a crossroad of northern Europe.  
This situation has an impact on the  
population and his opening on the world.  
Everybody speak English very well!

The well-being of the children is the  
basic principle of the Finnish  
educational system. The students are  
involved in their learning.

To do a Finnish sauna was a nice  
surprise. We swam in the Baltic  
sea : it was very cold!!!

To participate in the restitution of each one allows seeing the points of support of the different participants of origin and different teaching practices.

We are sad to leave!!!

### **A final overview of my experience in this European training programme:**

This internship allowed me to question myself about my professional practice, to meet colleagues from different countries. Moreover I was able to practice English every day for a week.
