

PORTUGAL

Portugal, although it is very close to Spain, has a language and a culture really different to it. Do you want to know some curiosities about it?

Music, like in many countries, is extremely important, and Portuguese “Fado” music is worldwide known. The “fado” represents the idea that each person has a future or a destiny from which it is not possible to escape. That's why the most sung themes are melancholy, and small stories about the daily life of the humble neighbourhoods.

On the other hand, Portugal's food is one of the most undervalued (but of the tastiest) in the world. There is a Portuguese proverb that says that there are more recipes with cod that days have the year!

Among all the curiosities of Portugal, the historical ones will stand out too! Portugal is extraordinary and I would love to visit it!
