

Portugal- a lovely country!

Portugal is a country located on the Iberian Peninsula in southwestern Europe. Portugal has many rich cultural facets, in fact, its culture was influenced by the Latin, Visigoth and Muslim cultures.

Portuguese people are friendly and humble. Furthermore, the family is one of the most important things for them as they sometimes can be a bit conservative. Portuguese people are not only friendly, but also respectful. Being well dressed is a token of respect in any event.

Otherwise, its cultural heritage is also quite big. Fado is the typical kind of music in Portugal, it is played with Portuguese guitars and it's also sung. It also has beautiful monuments with an unique architecture such as "Mosteiro da Batalha". Some beautiful towns in Portugal are "Viana do Castelo", "Braga", "Caminha"...

To sum up, I personally feel that Portugal is a stunning country which should be visited. If I could, I would visit it without thinking it twice!
