13. In your opinion what aspect of the mobility can be improved?

- It would be better for us if we could be involved more in school activities,

Co-funded by the
Erasmus+ Programme
of the European Union

- I tried to interact with all the teachers of different nationalities but some were more reserved and only at the end of the week started talking to the rest. I think teachers should be more outgoing
- In my opinion, instead of doing so many field trips outside school, I would do more activities inside school.
- I have nothing to improve.
- I think, it was a perfect week and the mobility was excellent!
- You guys did GREAT!
- In general, everything was alright.
- I think that more activities should be promoted in the school that receives the students, so that we have another perspective of teaching / learning, and can bring to our school different learning from ours.
- I think that everything was quite good and organized!

Although the results are positive, I learn that we can improve the mobilities including more activities at school.
