

PROCESS OF MAKING MY EMROIDERED MASK

Material and equipment:

- 100% cotton fabric
- Scissors
- Needle and thread
- Wooden hoop for embroidery
- Elastic band
- Sewing machine

The process:

Step 1: I drew the design on my fabric with pencil and placed it in a wooden hoop.

Step 2: I started with embroidery patiently for many hours.

Step 3: After embroidery part was done I took it out of the hoop, cut the excess fabric and started making the mask out of it.

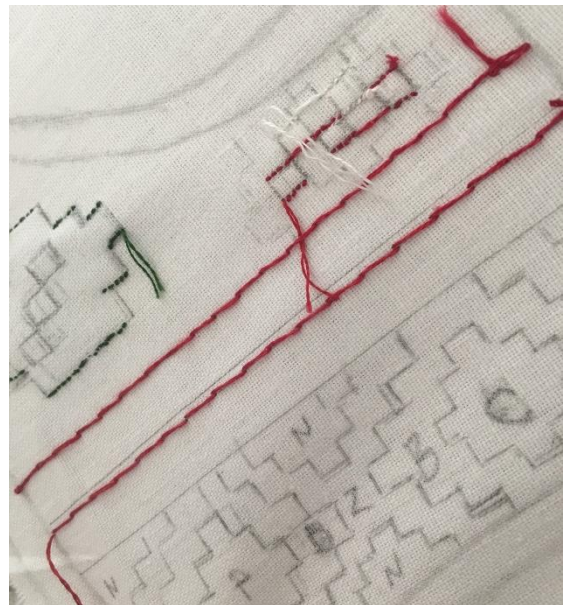

Step 4: When sewing part of the mask was done, I put elastic band at the ends and tied them.

Step 5: I washed it and ironed it.

The mask was done and ready for the exhibition. :)
