"This meeting was a great experience for me. At first, I was nervous and at the same time excited. I wanted to get to know all of these amazing people but I was a little bit shy. Together we succeeded to come over this barrier and we became friends. This meeting gave me new, fantastic friends, big experience and the chance to practise my English skills. During this week I became more confident and full of positive vibes!"

EVGENI DZHURKOV

"This project was a unique experience I believe every student should experience at one point in their lives. Exploring different cultures, ways of life, views on the world, traditions and customs. It is a once in a lifetime journey that is unforgettable throughout your whole life."

Simona Taralezhkova

"The project "Shaping young Europeans' future through drama" really changed my mind and my thinking. It made my everyday life more colourful and cheerful . I got to know great new people from my school and from the other international teams. Before I had never been interested in drama but when I signed up for the project I realised that it is actually really interesting and a very nice way to express your feelings.

But these are not the only positive points of the project ,with its help I practised my English very well and at the same time I helped many people who had difficulties with it.

The project helped me find new talents in me, practise my language skills and my communication abilities."

Victoria Ivanova

"For me that was one of the best project I've been ever involved to. I met so interesting people, I truly love all of them. The good things about this kind of projects are that you met so many peoples- each of them different and interesting, create so much memories, learn a lot about each country and even about yourself, but the only bad thing for me is that in the end you have to say "Goodbye" to all of them. I'm thankful to my school which gives me this opportunity."

Denislav Chakrukov

"That was one of the best experiences in my life. I met so interesting peoples, even create friendship more like a "brotherhood" kind of thing, I learned things which I've been never thought I can learn. I was really happy during this week untill the last day came. I hope that we will meet eachother again."

Mihaela Abadzhieva

"For me this was an unforgettable experience. The meeting was amazing because everyone were nice and fun . I became a friend with everyone and I'll miss all of them."
