3. Prepare interviews: 3 with guest students (about what they have learned during the learning activity), 1 with the representative of the park (about park's nature, its preservation), 1 with guest teacher (I offer Mihaela) about the project's importance and the impact on participants.
4. A photo report from the Seaside regional park: photos of nature (plants, landscapes, animals), short comments.

2. The name of the movie.
3. Photos, video footage from the park (everything what is related to the topic of the project), short descriptions or audio speech.
