	PL	FR	EE	PT	Mean
yes	89%	76%	85%	93%	86%
rather yes	11%	24%	10%	7%	13%
rather not	0%	8%	5%	0%	3%
no	0%	0%	0%	0%	0%
12. Would you like to participate in another Erasmus+ project in the future?					
	PL	FR	EE	PT	Mean
yes	71%	67%	85%	93%	79%
rather yes	26%	8%	10%	7%	13%
rather not	0%	2%	5%	0%	2%
no	3%	21%	0%	0%	6%
13. ESTONIAN students only:					
Note: write a NUMBER = mean value of pupils responses (3=yes, 2=rather yes, 1=rather not, 0=not)					
			EE		
1) Are you more motivated to learn Estonian language?			2.51		
2) Do you strongly identify with the Estonian culture?			2.20		
14. What the Science 4 all project has changed in you and/or your life? Will it (and how) influence to your future?					
POLAND					
I have the desire to visit different countries.					
I am more open to new cultures and my relationships with people have improved.					
The project has changed in me primarily the perception of people from other countries for better, more tolerant. I learned a lot about partner countries, and I dare say that this knowledge will be useful in the future. I also had the opportunity to make new acquaintances as well as to get to know the Polish participants closer. The project has had a big, positive surprise on me.					
Participation in this project made me broaden my knowledge about partner countries. My language skills have increased. I also have many new and wonderful friends					
The project has had a positive impact on my life, thanks to which I could expand my knowledge, learn about new cultures, improve English and meet many friends. Participation in the project affected my future because I am more open to new goals.					
Yes. Thanks to participation in the project, I am more open to work abroad. I feel more confident talking to foreigners and I am very open to learning the culture of other countries.					
It has changed a lot. I met many wonderful people with whom I still have great contact. Rather, it will not affect, because I do not go to school in which I will have extended these items.					
The project has developed my group work and self-confidence. He also developed my knowledge of English (which will be very useful in the future in practically all fields) and other countries cooperating in the project.					
It has improved my self-confidence and developed my language skills					
My attitude towards learning foreign languages has changed					
I've become more open to new relationships, I think that will affect my future.					
I got to know a lot of interesting things while on different trips and projects. The share in the project will affect my future, because thanks to the project I already have some experience and it is easier to establish contacts with other people.					
Thanks to the project, I was able to go to the sea, over which I have never been.					
Thanks to the project, I learned some interesting things, but it will not affect my future.					
The project allowed to get to know other countries, learn about culture, language, country where other students live.					
Thanks to the participation in the project I met new people and places of interest.					
Improvement of English, better contact with foreigners.					
Getting to know another culture, training English					
I am more open. I could practice my English in conversations with other project members from other countries. I think it will somehow help me in the future, for example, making better contacts with strangers.					
I started to use more English and learned many new things that I had no idea about before. I think that the Science 4 all project will affect my future in such a way that I will try to learn more about the topics that fascinated me in this project.					
I met wonderful people, I also got to know the culture and customs of Portugal.					
Yes					
He changed my thinking about other European countries but it did not affect my future.					
Rather not					
The Science 4 all project influenced me positively. I expanded my knowledge about partner countries and trained my skills in communicating in English. If in the future I have the chance to participate in this type of project, I will certainly use it.					

Rather nothing
I became interested in the culture of EU countries.
It has raised the knowledge about other countries.
The Science 4 all project changed my views on the cultures of other countries participating in this project, I learned many interesting things about their lifestyle, etc. I think that participation in the project will somehow affect my future, for example in going abroad for school trips or for profit.
Participation in the project changed my approach to people from other countries. I could meet them and see that they are not much different from us. Just like us, they learn English and sometimes do not know how to say something. The Science 4 all project will definitely affect my future. Thanks to it I gained confidence in relation to communication in English.
I became more tolerant towards others, I became convinced of technical progress, which is more and more aimed at modernizing work in various factories.
A lot
Through the Science 4 project I learned new things using other methods, eg group work, experience, trips. He expanded my knowledge of English and self-confidence, eg in speaking in a foreign language.

ESTONIA

i became more clever
My english got better!
I know english the best now
It changed my life better.
It shows me, that English is very important in our life. I think, it's very good experience for us.
it changet my life better!
I got to know more new information about Europe and my home country.
Opinion about science .Langues skills became better
Никак
I know english the best now
It' s big roll of my life .This project gif skills.
I improved my inglish and visited many interesning places.
Langues skills baceme better
Nothing
My english has improved. Then this project shows, that english is very important in our life.
Now i know match and other school subjects better, than before project
I learned a little bit of Portugal, Polish and France language, my English got better , now I miss Portugal so much
Better English
I learned more about Estonia and chemistry, now I know what were the great mathematicians
I became more sociable, I find it easier to get out of a difficult situation, learned many new people, became better acquainted with the English language.
The science 4 all project changed my life. I got to know, why I need not only English but math and science. I really loved math and geography more, that I loved before. I also made friends here with whom I spent great time.
I know english much greater
I think that this project help me to change my future job
I fink, this project took me more froends and knowledge.
This project gave me more knowledge and now I can better speak English. I became more confident
This project helped me to begin more confidence . I met a lot of new friends.I think this project is amazing idea and it was very interesting to visit different new places.
It increased my matematika and english skills.And saw me road in life.
New skills,science about stones and meteorits
This project has changed my life in a good way. I know english better now, and more interested in other culteres. Now I don't want to leave Europe, as I planned before. I want to travel more and learn new things.
I become more self-confident, made many new friends, started to think seriously about me and my future. Now I know where I can study to become a doctor.
Language skills become better, more friends, new knowledge about partner country
I understood that I am interesting in travelling. Now, I know the culture of other countries better than then,when the project started.
I improved my english and now I know, what I can go study and work in the other countries.
It changed a lot in my life. For instance, i have known a lot in area of geographie, mathematics, physics etc. I'm certain that I will change a job connected with natural sciences.
I understood that english language is very important in our life. Working in groups is relevant skill.
Of course i has a lot of knowledges about different sciences(chemistry,geography and language skills) I guess it was so useful for me and i will to use that skills in my life
I have met new people, visited new countries, upgraded language skill, recieved new knoweledges
no

PORTUGAL

Now I know how the other cultures are
My perspective of the other European countries and its culture, and it will influence my future in the work area.

I dont know
made me feel more confident and improved my English communication
Science 4 all change my life because I met amazing people and I learned about their culture and I can learned to speak better in English
Science 4 all project helped me mainly to improve my english. Now, I feel much more confident talking in english with foreign people. It's totally different from talking in the classroom, because we need to have a vocabulary more diverse. In the future, I will be more comfortable to talk in english. This project made me realize how importante english can be to our lives.
Yes , it will change my life
Everything
Better knowledge of the language.
Well, although i was and am a pretty good english speaker ive always been kinda shy and couldnt rily use my skills with actual foreighs. This Project made me have more confidence in my language skills and kind of like "shooshed" away most of my shyness. This experience might be very useful to find a job or to enter the business market in other countries.
This project has changed my way of working in a group. This project will also give me better job opportunities in the future as my English evolves. I also learned to give more importance to other cultures
Yes
This project help me to meet other cultures
I got to know new cultures and people from different countries.
I think that the Science 4 all, really help me to meet new people and know how to work with this diferent kind of people
FRANCE
I've discovered some specialities about diffent countries in Europe.
Now, I feel that I'm more open-minded and I really want to travel more in the future. I can dialogue with someone in english without problem, that's very useful now.
Science 4 all project help me to know and understand other culture and I think it's very important to see the way of life of families in other country
I can speak more English.
it doesn't really change my life
I learnt to be more social and amliorated my english with stangers. Science 4 all make me meet new people and it was very interesting to discovery some country.
It's a project which speak about the future.
Yes a little bit because during my trip I met lot of nice people.
Learn English.
the science 4 all project gave me more confidence about travelling without my family and i could met a lot of incredible people. Maybe that now i can talk more easily to strangers.
I progress in English and I'm less shy. In the future, I would work in English
Yes
I become more confident and I speak more with foreighs languages.
The Science 4 all project has changed myself because I think that I have improved in English and I'm more comfortable when I speak with other people in any project. I have taken more initiatives and I'm more confident in a group. I've also discovered different cultures and I've met different people.
I thing, nothing will change by this project
