

## *Radio Kaszebe*

In June 2019, local radio station *Radio Kaszebe*, invited our group to their radio station. We told them about the project, our achievements and plans for the remaining part of the project.

It was a wonderful experience!

All the participants were excited not only about the tour around the radio station but also about the opportunity to tell the world about the project they are a part of. Within limited time, they shared as many stories they could think of. It was great to hear the story from their perspective.

We can't wait for the next chance to feel like celebrities!
