

The feedbacks about « disguise as a part of the investigation ».

Firstly, I wanted to talk about the visuals. I think they are helping to understand what you are talking about like when you are quoting a moment of a Sherlock Holmes story (that I didn't know). they are also helping the presentation to not be boring.

There wasn't any factual mistakes for the Harry Potter part but I can't say anything for when you are talking about Sherlock Holmes

When it comes to stories we read, you

were able to talk about Harry Potter and Sherlocks and they are well explained, I was able to understand the part with Sherlock even if I didn't know the story.

For the language accuracy, I was able to find only one major: « ...the detective work on a case... » (works) the others are very slight and mainly pronunciation problems.

The overall impression is good, I liked your video, the only thing I can reproach you is: your voice is too monotonous and it makes the video less interesting.
