

Dance

Made by Schiavone Annarita Lucia

Dance has been my passion since I was 3 years old. Unfortunately, I don't practise it anymore but it's still my biggest passion.

Indeed, when I can I go to the theatre and watch performances, especially ballet, with my best friend, that I met at my dance school.

**Why do
I like
dance?**

**I think that
everybody can fall
in love with dance
If they want to.
Dance is magic,
fantastic to watch
and it is a way to
free ourselves from
bad vibes.**

**My favorite ballerina
is Svetlana Zakharova,
the first dancer of the
Bol'shoj Theatre, in Russia.
I like her because she's
very beautiful when she
dances.**

I think that dance is underestimated because some people don't account it as a sport. All kinds of dance are beautiful: classic, modern, contemporary, jazz, hip hop, samba... and more people should learn to appreciate them.
