

DIFFERENT TYPES OF WATER TRANSPORT

THERE ARE VARIOUS TYPES OF WATER VEHICLES. THESE INCLUDE CRUISE SHIPS, RACING BOATS, OFF-ROAD RIDING BOATS, WINDSURFER BOATS, RIVERBOATS, JET SKIS, BATTLESHIPS, RAFT BOATS, CANOES, FERRIES, YACHTS, SUBMARINES, AS WELL AS TUGBOATS.

IT'S IMPORTANT TO REMEMBER THAT WATER TRANSPORTATION ISN'T ONLY REQUIRED FOR USE ON THE SEA/ OCEAN, BUT ALSO FOR INLAND RIVERS AND CANALS.

EVEN THOUGH SHIPS THAT ALLOW FOR THE TRANSPORTATION OF PEOPLE, AS WELL AS GOODS OVER THE WATER, IS EXTREMELY IMPORTANT, TRANSPORTING INDIVIDUALS AND USING SMALLER BOATS FOR TRAVELLING OVER LAKES, RIVERS AND CANALS, ARE ALSO VERY IMPORTANT, ESPECIALLY WHEN IT COMES TO TRADING GOODS IN SMALL QUANTITIES FROM ISLAND TO ISLAND.

WATER TRANSPORTATION IS ONLY CLASSIFIED IN TWO DIFFERENT CATEGORIES, AND THESE INCLUDE BOTH INLAND AND OCEAN WATER TRANSPORTATION.
