# Pizza

---

## Growing:

**Tomatoes**-> The tomatoes are going to be a tomato sauce and it is produced in a factory.

**Wheat**-> We need flour for our pizza dough. The wheat grows on a field and is grinded in a factory.

**Olives**-> They come from different countries. The olive oil is needed for the dough and is produced in a factory.

**\*Sausage**-> The meat comes from a farm and a factory produces the salami.

## Production:

A company buys all the ingredients and produces a pizza with it. The package is cardboard and plastic from another factory.

## Store:

The company delivers the pizzas to the store where we can buy them.
