It was a beautiful experience 🐱

Fantastic

A part of the program was boring, in my opinion, for both Greeks and foreigners. It was exhausting as well. Also, the difficulties in English made our connection less deep.

More relax program

In the next mobilities, I strongly suggest that we should be more talkative between the nationalities, especially the Italian people, and the schedule could be a little bit more organised, and it should be taken into consideration all of the factors that could influence the activities.

This was an unique experience which I enjoyed very much. I am glad that I took part in such a project and I would repeat this activity anytime!

In the next mobilities, the schedules could be more organised and with more time to enjoy the people and the places. Overall it was a great experience that I would enjoy taking part in again.

-

I suggest that organisation should be better next time. Everything was very beautiful but too many things in one day.

A program organised

See you in Italy

I believe that we need to learn to communicate with each other a bit more, some students were shy and I didn't get to know some students

More team projects for all of students that take part in erasmus and not only for guests students

Nothing to improve from my perspective

Ποιο χαλαρό
