

# Erasmus+: E.C.S.C

*Erasmus 2022 Portugal*

# Who?

- ◆ Some students and teachers, from different classes and 4 countries: Italy, Portugal, Slovakia, Turkey

# What?

Erasmus +  
project:  
European  
Challengers To  
Save Climate

# When?

• The project started in 2020 and will go on until 2023

# Why?

- ◆ The project was born with the aim of dealing with climate change issues such as deforestation or drought. In addition, it like any other Erasmus project pursues knowing new traditions , visiting new countries, talking with different people and improving English language skills.

# Where?

- ◆ Our first year meetings have been online while following sessions have taken place at school: we have met in classrooms all together. Finally, between March and April 2022 the first mobility was carried out and five students and two teachers went to Portugal.
