### Sending schools

SK = Gymnazium Skolska 7 | Spisska Nova Ves | coordinator Janka Rozmusova

IT = Istituto Tecnico Industriale Statale Alessandro Volta | Perúgia | coordinator Daniela Urbani

TR = Ozlem Burma Mesleki Ve Teknik Anadolu Lisesi | Kastamonu | coordinator Hasan Sabitoglu

### The program

This exchange includes a week of activities related to climate change. It is intended to help the EU achieve its climate change goals through awareness-raising activities in five modules, developed in the exchanges. Students prepare reports, news and materials that will be disseminated. Teachers evaluate the project and disseminate it in the school, in other institutions and in the local community. Participants will be able to experience the educational environment of the school and enjoy the culture and spaces of that country.

### Objectives

1. Raise awareness of the effects of fossil fuels on climate change; 2. Reveal the negative effects of environmental damage on the beach and ocean due to plastic pollution and make suggestions.
3. Raise awareness of land use changes. 4. Raise awareness of the consequences of deforestation and waste recycling. 5. Raise awareness of energy saving and green energy.

### Participants

Country	Teachers	Learners
Slovakia	Jozef Kacenga Mariana Livorova Janka Rozmusova (coordenadora Erasmus+)	(4 students) Matej Grega, Ema Krsjakova Katka Kuzma, Lucia Mrocekova
