

Summary

Feedback about the project

Promise - reserve our origins, build our future - eTwinning project

15/22 students answered to our questionnaire.

Grade for the project in general (1-5) average 3,8

What do you like eTwinning as a learning environment?

46,7 % variable

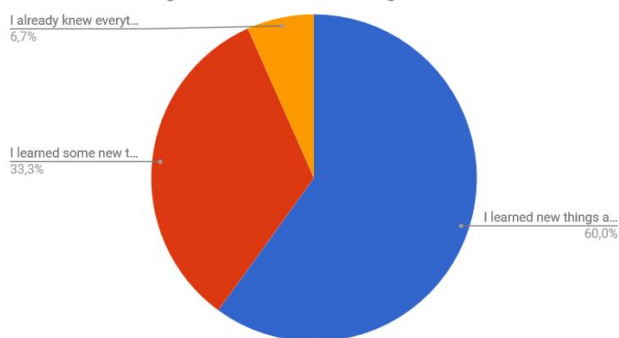

33,3 % interesting

rest answered it was boring, collaborative and innovative or traditional learning leading by teacher in classroom is more functional

I think over 80 % answered that our project had positive impact to teaching and learning.

Knowledge about cultural heritage

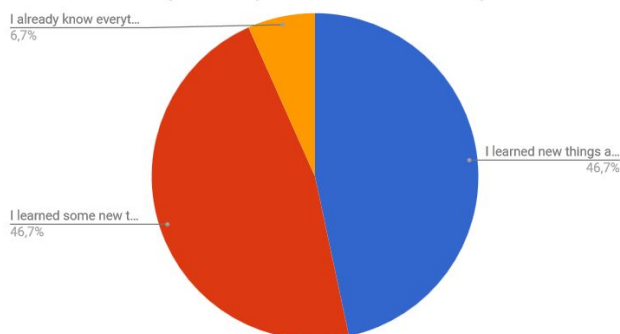

Määrä: Knowledge about cultural heritage

Over 90 % have learned at least some new things about cultural heritage.

Knowledge about partner's cultural heritage

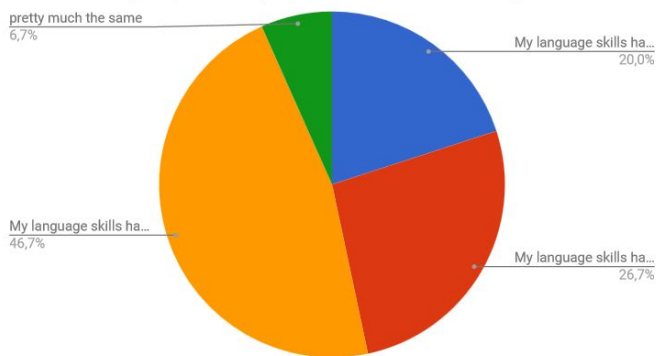

Määrä: Knowledge about partner's cultural heritage

Over 90 % have learned at least some new things about cultural heritage.

Language skills (English, Italian or Finnish)

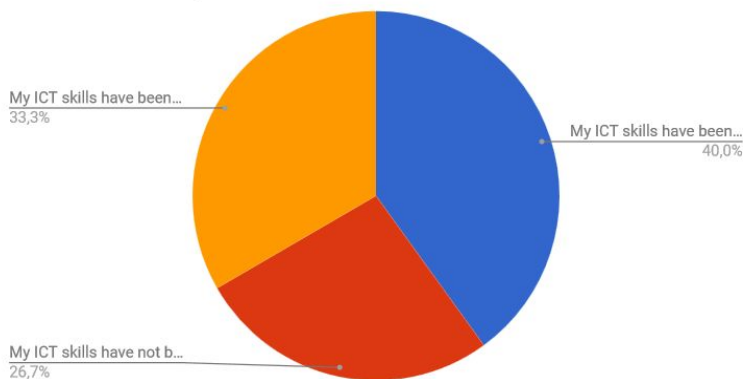

Määrä: Language skills (English, Italian or Finnish)

Many students (10) think that their language skills have developed a lot or a bit. Some (4) students answered that language skills have not been developed maybe because it was already good or excellent. I think they all have developed their second language (Finnish students Italian or vice versa).

ICT (using different tools, share material, find information etc.)

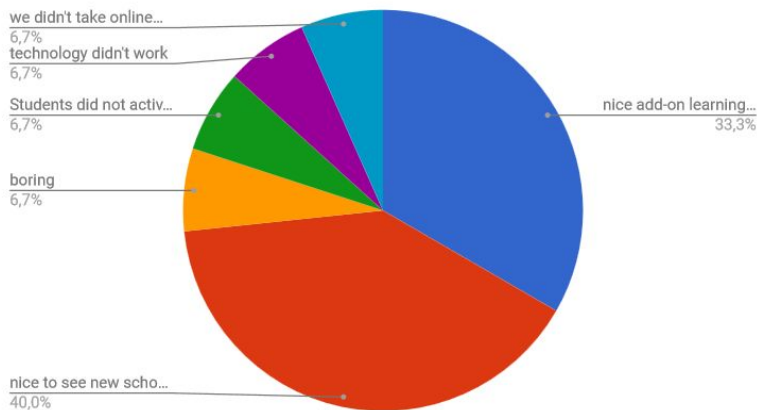

Määrä: ICT (using different tools, share material, find information etc.)

73,3 % (11) of students felt that their ICT skills were developed during the project. 4 of them felt that their ICT skills were already in very good level.

Online connections to other schools

Määrä: Online connections to other schools

More than 70 % liked online connections to other school. We had some problems with technology, but at the end we communicated online.

What was the best in the project?

Students liked mostly the following tasks:

- learn to know own cultural heritage
- finding art pieces online and recreating them
- working with a partner
- read people opinions about PBL
- tangible/intangible cultural heritage in our countries
- make the video
- new point of view, interested in digital art possibilities
- to meet the other class through the conference call

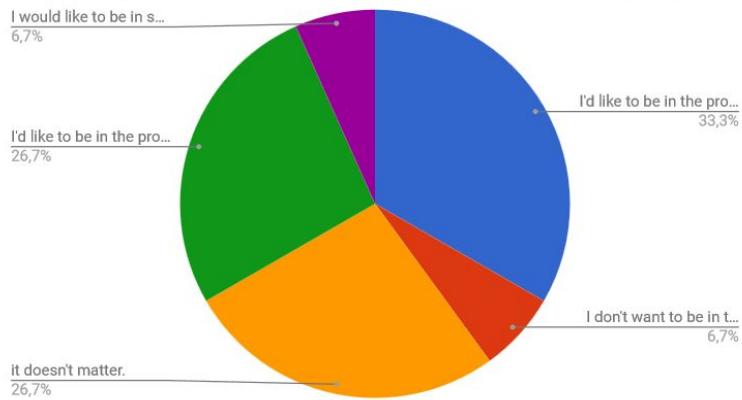

What was the most boring in the project?

- some presentations were maybe not that interesting
- searching information
- the organization
- technical problems
- to do everything in a traditional and not so much creative way

If you would like to be in the eTwinning project, what kind of topic are you interested in?
traveling to other country, environment, making video, cultural heritage and personal identity, equality and human rights, politics, environment

If you have possibility to be in a new eTwinning project,

Määrä: If you have possibility to be in a new eTwinning project,

About 60 % of students would like to have a new eTwinning project.

Feel free to write your opinion about the project.

It was a very formative experience and really motivating.

I appreciated the fact of using ict technology and doing research on the net.

Sharing aspect was a major point.
