

To add a post on the timeline, follow the different steps below :

You are on this page

We have released the Windows version of our desktop app. TikiToki Desktop allows you to create an unlimited number of timelines on your Mac or Windows computer. The timelines can include images, videos and audio from your local hard drive. To find out more and take advantage of our 50% launch discount, click [here](#)

#### Are you a project manager?

If so, you may be interested in our new web-based interactive gantt-chart style timelines created for visualising project progress. Find out more [here](#)

### TIMELINE ADMIN GUIDE

You currently have the **European Immigration** timeline selected. To edit another or create a new timeline, click the **Show all** option. You can turn this guide off in the **My account** tab.

There are three main things you will probably want to do:

#### EDIT OR CREATE A NEW STORY

You can edit stories by clicking on the story titles in the list. Or create a new story by clicking on the **Create new story** link.

#### CHANGE TIMELINE SETTINGS

Everything from a timeline's colour and date range to its image and intro text can be changed in the **Settings** tab.

#### ADD/EDIT CATEGORIES

Categories allow you to colour code your stories. See **Categories** tab for more info.

#### ADD/EDIT SPANS

Spans allow you to split timelines into sections with their own background image and color. See **Spans** tab for more info.

**STORY CONTENT**  
This is where you add content to the stories that appear on your timeline. We have separated this into three sections:

**BASIC INFO**  
Here you enter basic info about your story, including its title, the date it occurred and some introductory text. You can also choose the story's category (add categories via the **Categories** tab) and also add a link to an external web page.

**STORY MEDIA**

**EXTRA INFO**  
Access this via the **Extra info** tab. This is for stories that have a lot of text content. We allow this 'full text' content to be formatted with paragraphs and external links.

7. Write the title of your post.

8. Click here to add a date.
