What are your suggestions to improve the next meetings?

- ▶ longer!!!!
- ▶ nothing, i loved everything, but the trip to Wolfsburg didnt had to be. ;)
- ▶ i loved all
- ▶ It cannot be improved. I loved it the way it was.
- ▶ That you do more things that you get to know at the beginning.
- ▶ More interesting projects.
- ▶ More funnier projects.

What are your suggestions to improve the next meetings?

- ▶ To spend more time together
- ▶ I would suggest, in order track everyone's mood and implication, to create a private social media page for each team, so that they can post about their day and progress. And only the team members (and teachers) to have access to it.
- ▶ Maybe letting the kids choose the team they want to be in. I am sure that everyone works better when they are surrounded by people that make them happy. It helps a lot for those that aren't that social. And maybe encouraging the kids to talk freely even with other students not just in front of lots of people. I am from Romania and I really enjoyed talking to the people from Croatia and Germany because I had a lot to learn from them, can't wait for the next meeting.
- ▶ New places to visit
- ▶ Allowing more time for play and being a bit less ambitious.

What are your suggestions to improve the next meetings?

- ▶ Next time give us more instructions about creating a video.
- ▶ Probably the German team could be more active and to speak more with us.
- ▶ My suggestion is to know more English and make all the activities more interactive.
- ▶ I think the only improvement is to know exactly what time the meeting would take but overall they are pretty great
- ▶ I think it would be nice if we could like know each other better and sometimes choose our teams.
- ▶ Maybe if we worked a little less and had a little more free time. But it was great either way!!
- ▶ In the next meetings I expect even more interesting and fun activities, but however this last week, actually this whole project has already overcome my expectations. I am grateful that I had the chance to be a part of this amazing project.
- ▶ I love this experience, it is unforgettable for me and I don't think there must be something improved in the next meetings.
- ▶ The activities were great but also tiring. I think it was fine though :)
- ▶ So that the trip will be longer. And maybe to be more outside.
- ▶ I think the way it was, was really good and I think it doesn't need more improvement.
