Saving Water

How to make water less polluted?

Water

Drought

Pollution in the ocean

POLLUTION IN THE OCEAN

- More plastic than fish in 2050 – 150 milion tons of plastic
- Plastic polution is worse than oil spills
- Most of the trash sits on the bottom – about 70 %

POLLUTION IN THE OCEAN

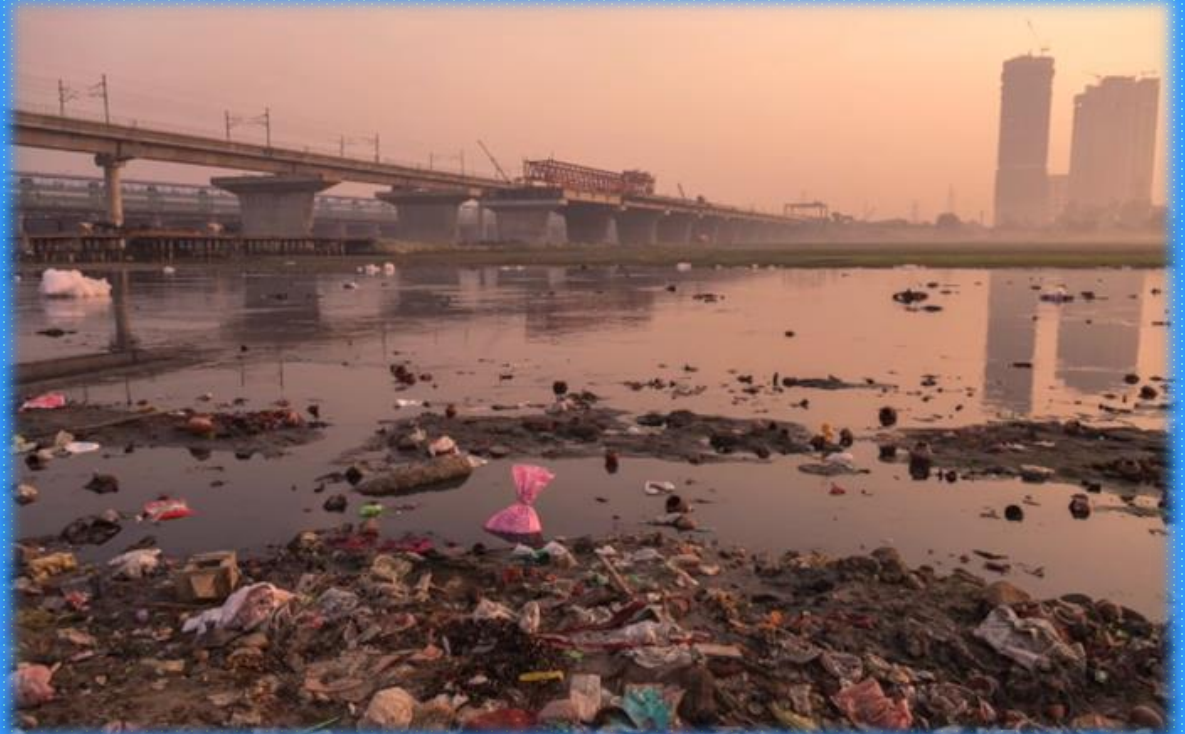

#TeamSeas

- Fundraiser by MrBeast and Mark Rober
- \$1 = 1 pound of trash
- Their goal was to remove 30 million pounds until the end of 2021, but it still functions today

HOW TO MAKE WATER LESS POLLUTED?

- Building new sewage treatment plants and modernizing the old ones
- Rational water management
- The use of waterproof technologies
- Using filters

HOW TO MAKE WATER LESS POLLUTED?

- Use less plastic
- Recycling
- Conserve water
- Reduce plastic consumption
- Install water-efficient appliances

DROUGHT

- Drought happens when a region receives less than average rainfall.
- SOLUTION:
- Drip irrigation.
- Planting more trees.
- Restricting non essential water use.
- Public awareness campaigns.
- Smart agriculture.

HOW TO SAVE WATER

- Every minute you spend in the shower uses up to 17 l of water
- Rain barrels can save up to 5000 l of water every year
- Old toilet flushes use around 13 l of water
- Low-flush toilets only use 4-6 l of water
