# The first day of Erasmus Aka Sunday

- It was pretty much just driving to Poland. But when we arrived we got tomato soup as a dinner and it was so good with it i got an apple juice and it was my favourite drink in our hotel when we ate our dinner. With 3 guys from our group we got out for a hour or so, and we were not too far away from our hotel because we didnt know about Poznan yet. We discovered pretty small hill, church and statue. In that small hill it has pretty nice view it then we arrived back at a hotel and went to sleep. It was a lovely first day at Erasmus.

# The second of Erasmus AkA

## Monday

- On our second day. It started with breakfast at our hotel which was interesting because im not used to it. We had a pretty quite options of what to eat i got bread, cheese and ham pretty basic but it was good. After the breakfast our group from Czech and groups from other nations went to highschool in Poznan which were they part of the project Erasmus. When we arrived there we were playing game with a name fruit salad which was pretty fun. Then we one by one at least tried to say names other people from the project Erasmus. And i was terrible at it because i mostly forget the names. Then we were divided by groups. It consisted of 2 czechs, 3 spanish, 2 itals and 2 polish people our first assigment was anything we would like to do so as a group and we decided to do origami. Because we rant out of ideas what to do. Our second assigment was to build tower from papers. And we got with it scissors and toilet paper we build some neat flower and of course it was the best build of the whole day. Our third assigment was to write poem or something we like. It was decided that Our czech group like snow. Spanish people like tortilla el qassa. Poland and Italy i forget what they write but it was a great time. And our last assigment was to write or draw from each nation. So we decided to write happy christmas to our language from each nation. Then we got a lunch at their school canteen and it was pretty good. Then we got a city tour at the old market square about some buildings i dont know the the names sorry. And we played a city hunting game which was pretty interesting to see some attractions. After that we got back to hotel had some dinner and got to sleep.

# The third day of Erasmus AKA Tuesday

- On our third day we had trip to Christmas Glass ball factory. But it wasn't in Poznan but in a city called Gniezno It was pretty interesting to see how Christmas balls and decorations are created. The best of that was that we could create our Christmas ball and it was quite interesting. I was happy that I could create my own Christmas balls. Then after we toured in the factory we had another trip to university in Poznan where we had a lecture about green gas effect, I got some new information about it, that it was both positive and negative it was quite interesting, then we got to see how they research about green gas effect, how they produce electricity from compost, what technology they have, what they teach about etc. After the university we went to Lumina park which was park with lights in the form of animals or buildings, probably my most favourite trip in Poznan we were there for half an hour then we got back to hotel and get some sleep

# The fourth day of Erasmus AKA Wednesday

- On our fourth day we went to their high school again where everyone from their country presented about their school, state, city, how they deal with nature, so it could be better future for our next generations, what are their situations in their country with this topic etc etc. It was both interesting and depressing in some way in one way how they deal with it and in second way that problems they have in their country, I learned some new things from it not gonna lie, i was pretty surprised by it. After we finished our presentation we went to Croissant museum and that was my second favourite trip, we had one guy who instructed some people to help with croissant with the name St.Martin croissant we learned their past about them that it represents good in people, he was a funny guy i liked him and he was even a pretty based not gonna lie, he gave us a free St.Martin croissant, not the whole thing but it was good. After that we were on the bus on our way to Porta posnania which was an audio guide, museum but before that we stopped at a cathedral we learned something new that it has the oldest religious artifact on Europe probably on earth even who knows, made by human after we got to see some artifacts. We continued on our way to Porta Posnania it was pretty interesting it was my first time in audio guide museum so after we went through everything. We went back to sleep at a hotel

# The fifth day of Erasmus AKA Thursday

- On our fifth day we went to city called Toruń which was a pretty far away, to the living museum of gingerbread, maybe it was just me, but i didnt enjoy it very much it was quite boring, so after we were done with that place we went to planetarium which was a catastrophe. Audio was bad, but they had a comfortable seats so I slept well in there so i cant complain very much the interesting thing in the planetarium was the room which recreated a simulation in the space or showed photography of Mars which was interesting. After we finished our journey there we returned to the hotel and got some sleep

# The sixth day of Erasmus Aka Friday

- On our fifth day, which was also a last day in Poland. On our last day we went to their high school. We had an art workshop which was nice. We created a bag and get to draw anything at all on it which was nice to create a memory of the last day. After we were done with the bag, we got a certificate of attendance at project Erasmus and one chocolate. So after we got our items, we got in the car, and we were on our way to the Czech Republic

# Summary of this trip

- Everyone were friendly, funny i had a great time with them
- My favourite part of this trip was the gingerbread man he was based
- After i tried some food on Polish, i can say that i tasted something new and unique
- The planetarium it was okay, except the film part that audio sorry but it was terrible
- I hope that i get another chance to be with them again
