

ERASMUS + " OLD PLACES- NEW SPACES" 2019- 2022

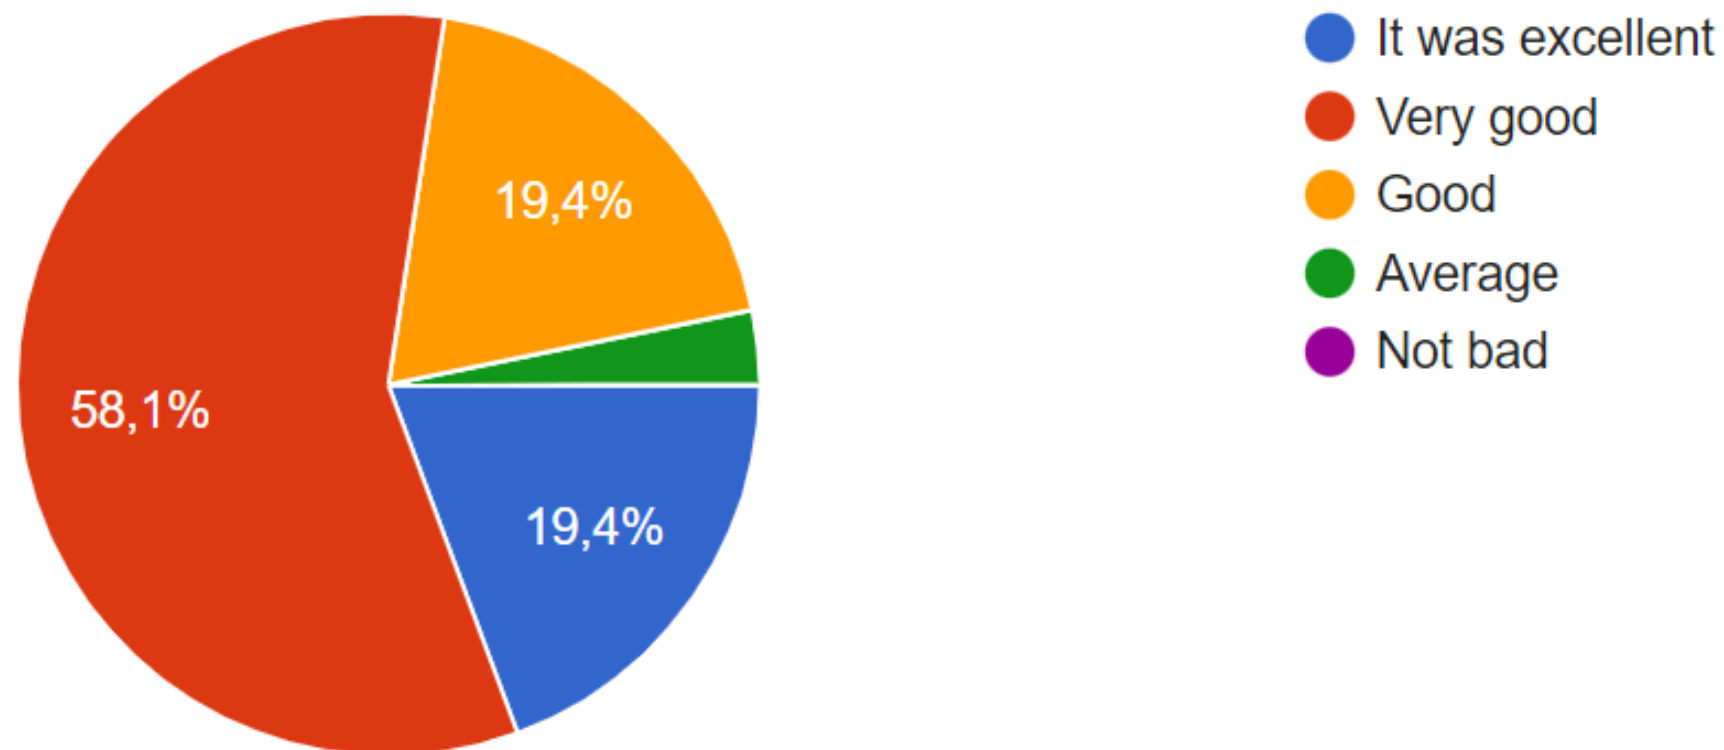

Evaluation of the 1st mobility meeting in Ventspils

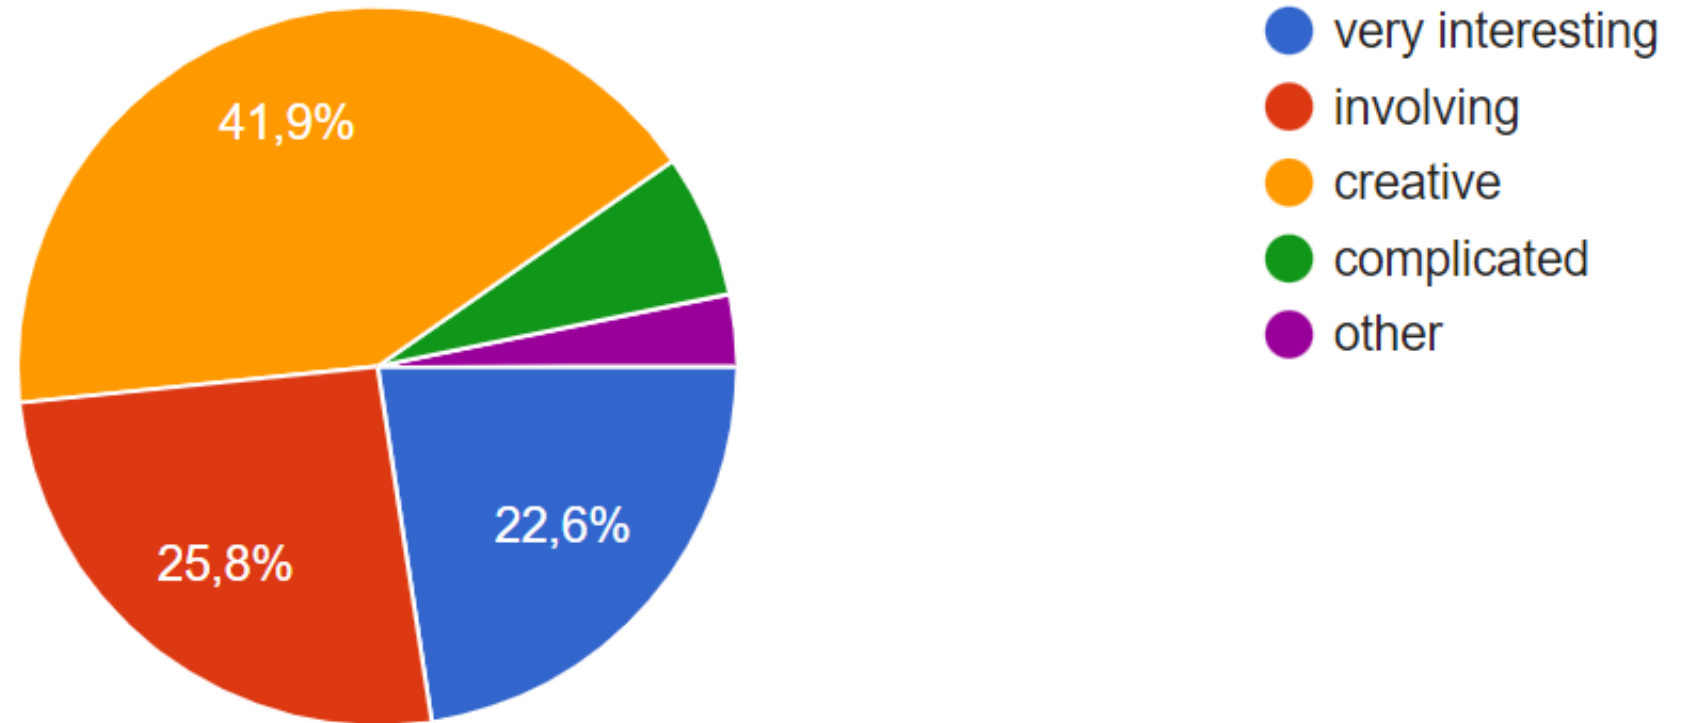

1. How would you evaluate the program of the mobility in general?

31 atsakymas

2. What is your evaluation of the project activities/workshops? They were...

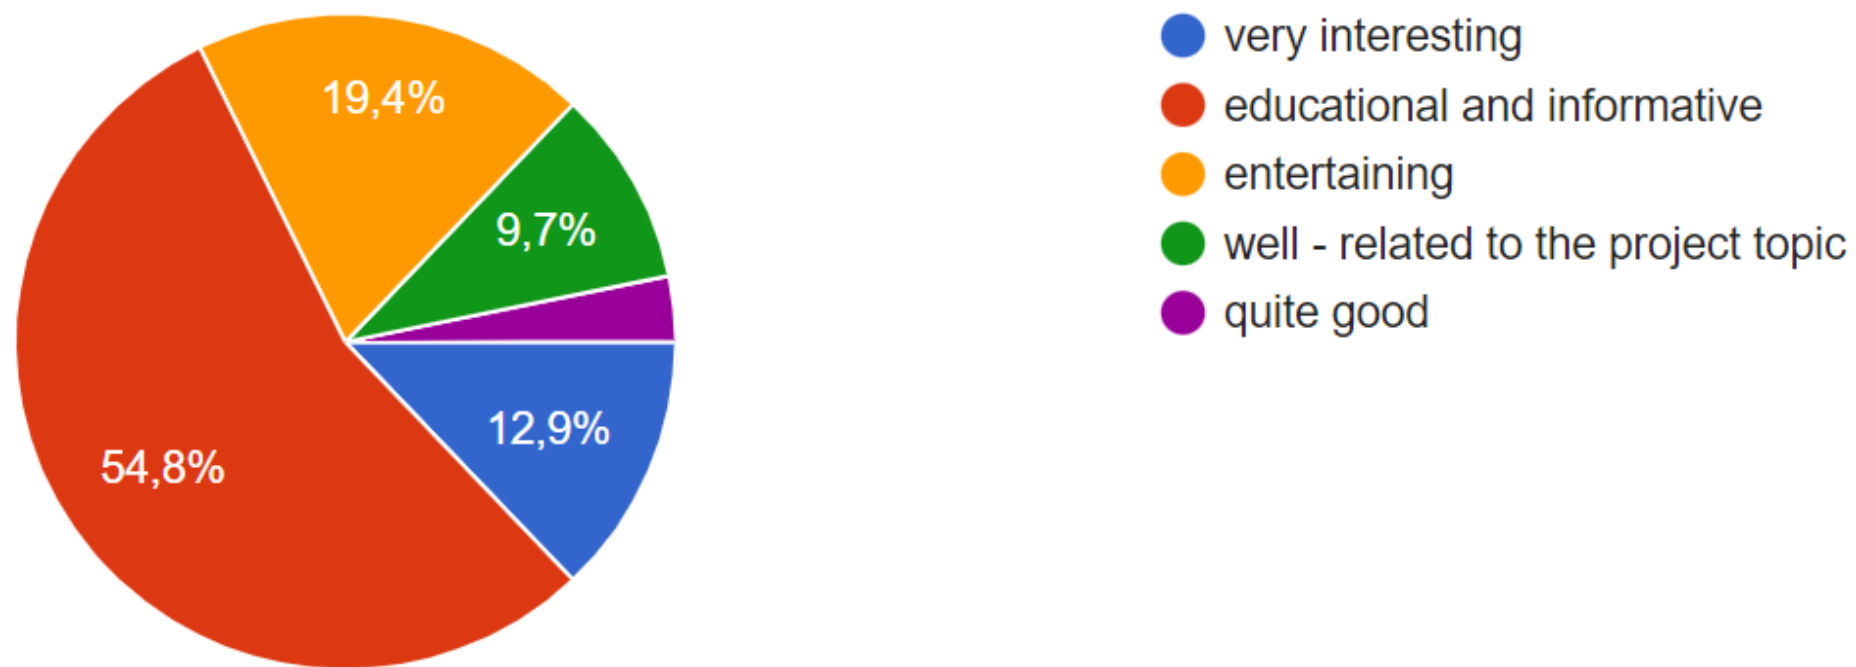

31 atsakymas

3. What is your evaluation of the project cultural activities? They were...

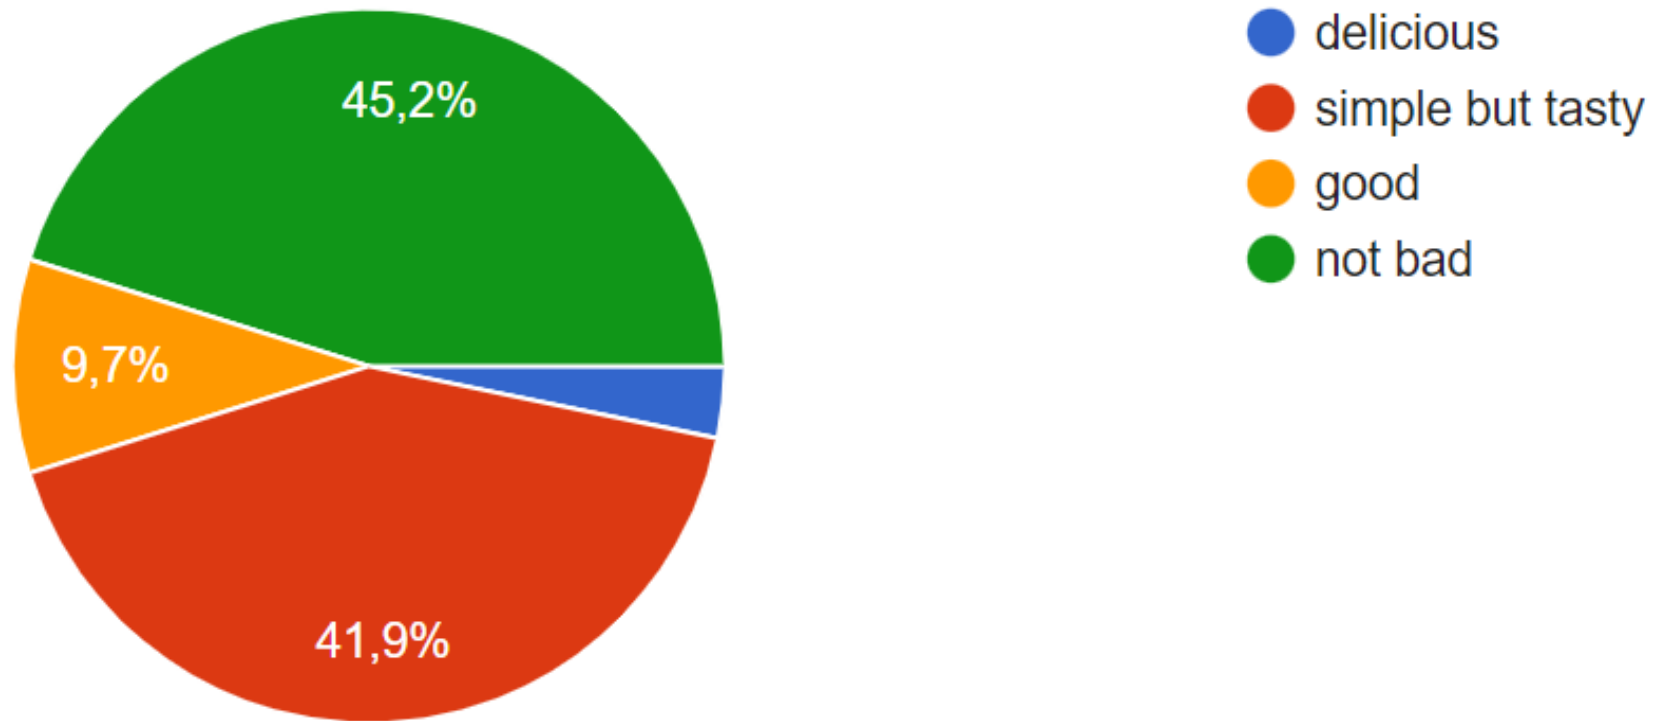

31 atsakymas

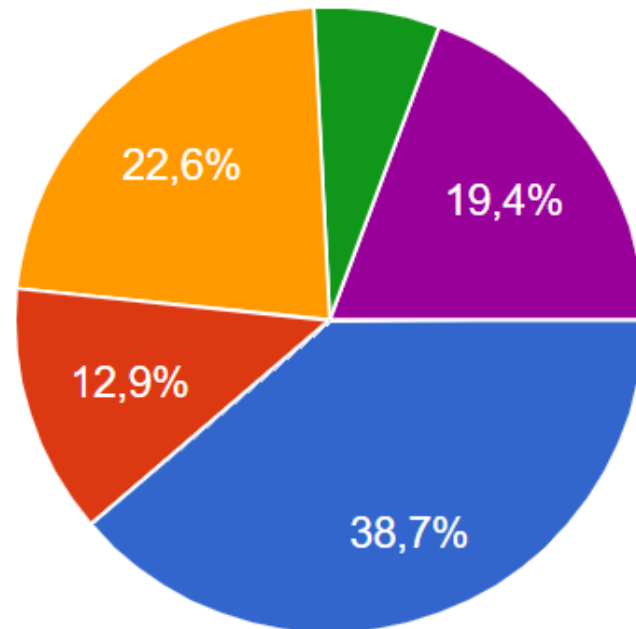

4. What was the food like at school?

31 atsakymas

5. What is your evaluation of the communication among the participants of the mobility meeting? It was/had ...

31 atsakymas

- It was very sincere and friendly.
 - It was quite good.
 - We had a lot of possibilities for communication.
 - I mainly communicated with the members of my group.
 - We could have communicated more.
-

6. What did you like most of all and why? (What is your brightest memory from this mobility?)

31 atsakymas

.

Despite the tension caused by covid situation, we managed to do many activities not only at school but in other spaces as well. I was impressed by the performance of the girls' choir and school orchestra in the concert hall. I was amazed to see students' concentration and passion to music and what they do.

The programme was quite relaxed.

I would say singing, dancing folk dances with everyone in Alsunga.

we made many friends that was good

Experiencing their lifestyle

I liked socializing with students from other countries.

6. What did you like most of all and why? (What is your brightest memory from this mobility?)

31 atsakymas

I liked ventspils castle so much

everyone was so friendly i had a lot of fun hope to see them again

Hospitality of the host school.

.

I liked the visit of Alsunga and Kuldīga

Sightseeing activities because we saw interesting places and things.

I liked how friendly everyone was and my brightest memory is about last night we spend together at hotel

I liked all the peoples.. I can learn new traditions

6. What did you like most of all and why? (What is your brightest memory from this mobility?)

31 atsakymas

My brightest memory from mobility is trip to Kuldyga and Alsunga

the 1st day, all of the interesting icebreaker games and introducing myself to others and just communicating with others

trip to kuldiga

I enjoyed spending time in Alsunga and Kuldyga, dancing Latvian national dances and making national dish.

I liked evening meetings a lot and those activities, which we were doing without teachers

I really enjoyed the excursion to Kuldiga.

Most of all I enjoyed the trip on Wednesday

6. What did you like most of all and why? (What is your brightest memory from this mobility?)

31 atsakymas

Great school, team, principal. New spaces in Ventspils, where classes took place. Educational classes have been perfectly adapted to the project theme. A lot of work has been done in a short time.

The T-shirts workshop

When we were dancing traditional Latvians dances.

Library. It is a beautiful and very modern building.

best was when we went to Alsunga. I was very fascination about this city and also i liked dance class it was very funny

The country-its cleanliness

Meeting new people and improving my English skills

Get to know new culture

7. What things need to be improved during future mobilities and how?

■ 31 atsakymas

.

The teachers from partner countries should get involved in activities more.

The activities could be a bit more connected with the project.

The program of the day should be more organized and maybe a bit longer.

if possible, do not eat at school

Communications between students

Before meeting in the school they should talk on instagram and meet.

more free time for students

I think everything is enough

7. What things need to be improved during future mobilities and how?

31 atsakymas

idk what to say everything was good maybe it can be longer :)

There could be more communication among the teachers.

.

More time with other participants, more freedom (talking about walking around the city etc.)

More communication among the participants would be good.

Need more free time, like one day off, so we could go shopping and get to know Ventspils better.

One day need to be like free day, where all students walk around the city

I think more creative and funny activities

7. What things need to be improved during future mobilities and how?

31 atsakymas

transports, time management

there should be more cultural exchange

More responsibilities from students

Time should be planned better and a break between activities should be longer, because exchange students sometimes didn't have enough time to go to the shop or their hotel room just to put off some things.

I have no suggestions.

I can't think of any things that need to be improved

Activities for teachers. Teachers can be involved in the same activities, but not with students.

More activities at school

7. What things need to be improved during future mobilities and how?

31 atsakymas

More activities at school

I don't know. Everything was great

I don't think there is any need to improved anything in the future.

I think that organization homes students failed somewhere. Sometimes they didnt know what we are going to do .Especially on Thursday i was dissapointed with them.

Nothing actually as each country is unique so is the meeting

Creative but Also educational activities included, free time to explore and talk with the partners from different countries

All was ok, maybe a little bit more free time for students
