The meeting had the objective to discuss how to carry on the project and the related activities to develop in the last phase of the project.

The partners agreed that considering the persistence of the sanitary emergency due to Covid -19, the last two transnational meetings planned in Poland (March 2020) and in Turkey (June 2020) will be postponed, once again, to the very last part of the school year, when the pandemic will be hopefully under control, namely, May and June 2021, respectively. If the sanitary emergency lasts, the partners agreed on organising the two last transnational meetings virtually to let the students compare their outputs on the agreed topics and activities shown in detail below.

The pandemic is causing terrible delays in the planned activities in every school partners. However, the partners are trying to carry on the project using the eTwinning Twinspace, where also the students will cooperate.
